

NO TERRITORY FOR ITALIANS SAYS TURKEY

Fleet Makes a Demonstration Before Tripoli--European Powers Indignant With Roman Government

CONSTANTINOPLE, Sept. 29, 12:15 a. m.—According to a local agency the Turkish government has decided to appeal to the loyal and good people of Italy, but to reject the demand looking to the occupation of Tripoli. At the same time the government will address notes to the great powers making an appeal for intervention.

LONDON, Sept. 29.—It was stated here tonight that Turkey already has sent her reply to Italy's ultimatum, expressing willingness to give prompt consideration to Italy's grievances, as soon as she is made acquainted with them but declaring that it will be impossible to grant concessions incompatible with the Sultan's sovereign rights and Turkey's treaty obligations.

LONDON, Sept. 29.—Italy's warships are before Tripoli and Italy's ultimatum is in the hands of the Turkish government. Only a few hours will elapse before Turkey must make her reply.

A late dispatch from Constantinople gives the report that Turkey has rejected the Italian demands.

Dispatches from Rome indicate that such an answer would not be a surprise. Therefore Italy is making preparations to dispatch warships and troops to that portion of the Turkish empire over which she now demands a protectorate.

That the situation in Tripoli is critical is evidenced by the fact that most of the Italian residents and many of the Europeans have taken a hasty departure. The Turkish authorities in Tripoli so far have maintained order, but there is a veritable panic among foreigners.

The Italian government is backed by the newspapers of that country, but the British press has severely arraigned Italy for what is termed "precipitate action." Germany has been intervening in behalf of Turkey for a peaceful settlement, so far has failed to make progress, and some of the German papers are bitter in their denunciation of Italy's methods.

The Turkish steamer Derna, which yesterday entered Tripoli harbor and landed men and munitions, is said to be only one of a number of transports dispatched to that port.

Four more Turkish steamers with arms and ammunition are expected to arrive at Tripoli at any moment.

NO INTERFERENCE

LONDON, Sept. 29.—It is understood that the Turkish ambassador to Great Britain, Tewfik Pasha, on Tuesday informed the British foreign office that the landing of a single Italian soldier in Tripoli would be treated as a casus belli. He also begged the British government to use its good offices to bring about a settlement.

Sir Arthur Nicholson, permanent secretary of the foreign office, it is further understood, replied that the government would be unable to interfere, as British interests were not involved. It is expected, however, that Sir Edward Grey will receive Tewfik Pasha tomorrow when the question of mediation may be reopened.

The British press also charges the Italian government with cynical recklessness, because her action may have deleterious consequences affecting all the powers having Muslim subjects in Africa and Asia, besides the likelihood of reopening the Balkan complications.

A dispatch to the Chronicle from Constantinople says that the German emperor in an autograph letter promised the Sultan every support with a view to peaceful settlement.

The powers, says the dispatch, have notified the Porte that they are unable to interfere. This has caused a feeling of bitter disappointment. In the event of a rupture, assurances have been given that Great Britain will undertake to safeguard Italian interests in Turkey.

STANFORD STUDENTS TO TALK SUFFRAGE IN SANTA CLARA

(Special to the Republican)

SAN JOSE, Sept. 28.—Harold Durst and F. Hilton two Stanford university students, will stump the county during the next two weeks in behalf of the suffrage amendment to the state constitution, which is to be voted on October 10th. This announcement was made this evening after a conference of the members of the Santa Clara County Equal Suffrage League at which the offer of Durst and Hilton to make the speaking tour was accepted. Meetings were arranged for and the Stanfordites will begin work Sunday when Harold Durst and Bruce Bliven will address a Congress Springs crowd on the claims of the women to the ballot. Arrangements were started today for the organization of election day and the women propose to get every friend of their cause to the booth.

SPROULE TO HEAD SOUTHERN PACIFIC

NEW YORK, Sept. 28.—The changes in the operation organization of the Union Pacific and Southern Pacific systems, recommended by R. S. Lovett, chairman of the executive committee, which he has been working out with the committee and the higher officers of the company for several months, were announced today following messages of the board of directors, at which the plan was approved.

A. L. Mohler, now vice president and general manager of the Union Pacific, has been selected as president of that company and of the Oregon Short Line, with headquarters at Omaha.

Wm. Sproule, who was for a number of years its freight traffic manager, has been selected as president of the Southern Pacific Company with headquarters at San Francisco. He is now the president of the Wells Fargo Express company.

STATE CONTROL MEN RUNNING CONVENTION

Ballinger Applauded in Declaring Against Federal Policy.

DENVER, Col., Sept. 28.—In an address delivered before the Public Lands convention here today, former Secretary of the Interior Richard A. Ballinger aligned himself with the opponents of further centralizing of the control of public lands in a Federal bureau, and won the applause of the advocates of state control of the public domain who, the developments of the opening day of the convention clearly indicate, are in control of the meeting.

Interest tonight is centered in view of the appearance of the speaker, for, in what President Taft, who is to address the convention next Tuesday, will have to say.

Efforts to cut a canyon in the favor of Federal control of public lands failed this morning for lack of representation.

An attack on the government reclamation service by Francis G. Tracey of Garfield, N. M., was the feature of the afternoon session. Speaking on private "irrigation enterprise," compared with government reclamation, Tracey said that the men entrusted with the administration of the reclamation service "have always and entirely failed to appreciate the spirit and purpose of the reclamation."

FUGITIVE LYMAN IS CAPTURED IN SOUTHERN OREGON

End Put to Sensational Flight of Panama Land Promoter.

TWO OTHER ARRESTS New York Fiances Supplied Financial Aid to His Escape.

SAN FRANCISCO, Sept. 28.—Dr. John Grant Lyman, society man and promoter, arrested early in September charged with fraudulent misuse of the mails in connection with a Panama land deal, was rearrested tonight at Lakeview, Ore., following a sensational escape from an Oakland hospital on the night of September 22.

The arrest tonight was made by Sheriff W. J. Snyder of Lake County, Oregon, who acted on information furnished by United States Marshal Elliott of this city. Arrested in company with Lyman is J. M. Thorne, a nurse in the hotel where Lyman was confined, and a third man whose name is not given in the telegram to Marshal Elliott but who is believed to be the chauffeur of the automobile in which Lyman was trying to reach the British Columbia coast.

When Lyman first escaped it was believed that he had drugged his guard, a deputy sheriff named C. M. Courtwright, and Courtwright asserted that he was taken ill after dining with Lyman. Later, however, Courtwright confessed that he had accompanied Lyman and Thorne on a joy ride in Oakland and that Lyman and the nurse had escaped him. Marshal Elliott soon obtained evidence that Lyman was travelling northward in an automobile, and several deputy marshals were posted along the border between California and Oregon. Also the county officers along the border were notified.

Lyman was arrested first on September 28th and he made a break for liberty a day or so later while he was returning to the Alameda county jail in custody of a marshal. In boarding a street car sprained his ankle and was taken to a hospital from whence he escaped the second time.

NOT HIS WIFE

When Lyman was arrested in this city he had with him a beautiful woman supposed to be his wife. After his arrest it developed that he was engaged to Miss Maud Lehman, the daughter of a wealthy glove manufacturer of New York City, whose description corresponded closely with the description of the woman who posed as Lyman's wife and who departed for the East immediately after his arrest.

Mrs. B. F. Vann of this city, an aunt of Lyman, told Marshal Elliott a few days after Lyman's escape that she had received from Miss Lehman two drafts for \$100 each with the instruction to cash them at a certain bank and give the money to Lyman. This she did.

ANGRY SUFFRAGISTS ATTACK COL. IRISH FOR OPPOSING THEM

(Special to the Republican)

BIRMINGHAM, Sept. 28.—Colonel John P. Irish was almost treated to demonstration of his pet theory of the right of might when at the close of his speech in the Berkeley high school auditorium tonight a score of angry suffragists crowded around him, nearly threatening his portly person.

"I am from the South," cried one woman, "and I am ashamed of you." "You are far from being a gentleman," came from another woman. White hisses and angry expletives added to the Colonel's discomfort.

Irish's speech consisted mainly of a defense of his position and answers to attacks made on him. He deplored the Oakland campaign and referred to it as a "Campaign of Slander." He told of an Oakland school teacher who had told her class that Irish represented the liquor interests.

Hereson Henry Wright, a local single-taxer, arose and asked the speaker if it were not true that Irish stood with the liquor interests. For an answer Wright was told that perhaps he was a reformer and that he had no qualms concerning his age added to a virulent outburst of recriminations. Irish made another counter attack on a Berkeley editor, calling him a "Gimlet" and a "Creature." He said he represented eight-tenths of the women of California, the best class who believed in the home. In answer to Dr. Aik's statement that votes for women is a natural right, Irish exclaimed, "Why, a natural right can't be taken away." There were about 300 present, half of whom were pro-suffragists. Among the committee in charge were a number of college professors' wives.

GENERAL REYES AGAIN AN EXILE

Wearies of Political Contention and Deserts Mexican Campaign.

MEXICO CITY, Sept. 28.—General Bernardino Reyes, who was the formidable rival of Francisco I. Madero for the presidency, sailed today for Havana, just before the ship weighed anchor he said he would continue to New York.

From Vera Cruz, he sent a message to President De la Barra saying he did not care to remain in the country and become a cause of embarrassment; that complying with his duty as a retired army officer, he later would advise him as to his real intention upon guaranteeing to exercise his right that it now lacks in the knowledge that in due time I shall return to take my place at its head, protected always with the banner of law.

Accompanying General Reyes were David Rotana, one of his most ardent supporters, Rotana's wife and children, and Miguel Quiroga, another adherent of the general. The trip to Vera Cruz, which almost resembled a flight, was made in a private car last night and on account of the false entry of his name in the passenger list the identity of General Reyes was not discovered until late today.

Jose Pena del Valle declares that the departure of Reyes does not mean the disruption of the party he left behind him, but says it henceforth will be known as the "Republican party" and that it will be prepared for the next national election.

ailed this morning for lack of representation.

An attack on the government reclamation service by Francis G. Tracey of Garfield, N. M., was the feature of the afternoon session. Speaking on private "irrigation enterprise," compared with government reclamation, Tracey said that the men entrusted with the administration of the reclamation service "have always and entirely failed to appreciate the spirit and purpose of the reclamation."

STRIKE MAY BE DECLARED ANYTIME IN NEXT FOUR DAYS ON HARRIMAN LINES

Union Leaders Undecided on Time

Deliberations Are Continued at Chicago Headquarters.

MAY START IN WEST Kruttschnitt Gives His Final Answer to Shop

CHICAGO, Sept. 28.—At midnight the threatened strike order for 35,000 shop employees on the Harriman lines and the Illinois Central Railroad had not been issued. Despite persistent reports that the strike would be called at 10 o'clock tomorrow morning, reliable information indicates that deliberations of labor officials may be continued over Sunday.

The president of four or five international labor unions involved are reported to have agreed late tonight to issue the strike order tomorrow morning.

Then it is said, President James O'Connell of the machinists balked. O'Connell, who is attending a convention at Davenport, Iowa, is reported to have urged delay until Monday.

Following O'Connell's decision, it was suggested that the strike might be called on the Harriman lines first and later be extended to the Illinois Central. This point had not been settled.

Prepared in Los Angeles for a Strike

LOS ANGELES, Sept. 28.—We do not expect the order to strike before Saturday, but of course we may have any time," said J. J. O'Leary, district organizer of the bolliermakers' union, tonight when asked regarding the probability of a strike of Southern Pacific shopmen in this division. "The order will not be issued until we are much concerned, at least not enough to discuss the matter openly, and as far as I can see, it is simply a matter of keeping up until we are told to quit. This is what we will do."

O'Leary denied the report that moving pictures of the strikers massed around the fence at the local shops would be taken to be used for the benefit of the McNamara brothers fund. In the southern division of the Southern Pacific and the San Pedro, Salt Lake and Los Angeles railroads, there are approximately 2500 men who would be directly affected by the strike order.

At Bakersfield there are 550 men and at Tucson, the third division in this district, there are also 550. The payroll of the local men amounts to about \$250,000 a month, which would be increased to nearly three times that sum if the strike affected the trainmen.

William Atkinson, sixth vice president of the international brotherhood of bolliermakers, who was in Los Angeles today, stated he had canvassed the situation from New Orleans to San Francisco and found the sentiment overwhelmingly in favor of a strike.

"Every man will walk out," said Atkinson. "West of the Mississippi river the Harriman system controls nearly all of the railroads and in this territory alone 18,000 men will respond to the order." Atkinson left at noon for San Francisco.

PREPARED FOR TROUBLE

The roads, it is said, are in good shape to withstand a prolonged strike. Unionists say the roads have been employing men in all the centers of population for months and have a long list of men ready to take the strikers' places. Dispatches from California state that most of the big railroad shops are enclosed by stockades.

Possible action of the railroads is said to be indicated by the Illinois Central's action at Memphis, Tenn., in obtaining a federal injunction restraining striking clerks from interfering with interstate commerce, through picketing or other means.

Five unions will be affected indirectly by the strike order, the machinists, the blacksmiths and helpers, the bolliermakers, the sheet metal workers and the carmen. In addition, four allied trades, the steam fitters, painters, copper and brass workers and clerks, may go out. All these unions have voted in favor of a strike as an alternative to the refusal of the railroads to recognize the federation.

The strike vote was taken some months ago but action was delayed because of the refusal of the machinists to countenance the strike. This objection was removed in Davenport, Iowa, last week, when the machinists voted to place all power in the hands of their international officers.

The situation is made more complicated by labor struggles already in existence. Throughout the South, clerks and freight handlers have been out for a week. The Missouri, Kansas and Texas carmen are striking in the Southwest. Today, the New Orleans Brotherhood of Railway Handlers of the Illinois and Yazoo and Mississippi Valley railroad quit work. The Georgia and Florida road added further confusion today with an ultimatum that they will strike in twenty-four hours unless certain wage and union conditions are granted.

Barbed Wire Fort Guards Espee Shops

BAKERSFIELD, Sept. 28.—When the employees of the Southern Pacific shops here left off work tonight they expected two more days of work at least before the strike order came.

Many of the men declare they don't want to strike, but will be governed by the order from their headquarters. The payroll of the men here is \$50,000 a month.

Sheriff Baker refused to swear in deputies for duty at the railroad yards and the company is now employing guards. A mile of fence has been built around the shops and this is topped with barbed wire. The yards at night are illuminated with more than a hundred electric lights.

The company has run twenty cabooses into the yards and these have been converted into sleeping quarters in readiness for the expected walkout.

Score of Railroad Policemen

SACRAMENTO, Sept. 28.—J. G. Taylor, business agent of the District council of international machinists, said tonight a strike seemed inevitable and could only be averted by one man—Salus Kruttschnitt.

The employment of nearly a score of additional railroad policemen today by Special Agent George Green of the Southern Pacific Company is the second step taken by the railroad company during the past few weeks in preparation for the expected strike. A seven day barbed fence topped by four strands of barbed wire, erected several weeks ago was the first indication that the company was preparing to resist the demands of the men. About 2600 men are now employed in the shops here.

STRIKE BREAKERS ARRIVE IN FRESNO AWAITING TROUBLE

Fusilade of Shots Greeted First Party to Reach Here from South

Sixty Seven Shopmen Will Lay Down Tools on Orders from Headquarters

In anticipation of a general walkout of shop and yard employees on the Harriman lines within the next few days, the Southern Pacific is sending strikebreakers to Fresno in carload lots. Early yesterday morning, eight arrived in a baggage car from Los Angeles and the neighborhood of forty were unloaded from two coaches at noon, when No. 7 arrived from Southern California.

Last night, eight guards were stationed around the stockade near the roundhouse. Inside this stockade there are about seventy-five cuts, a half-dozen box cars and enough tools and supplies to last for a month. Every movement in the yards indicates that the Southern Pacific is preparing for a strike. Three members of the state railroad police are on the ground and Assistant Superintendent Doid of this division has been sent here from Bakersfield by Superintendent Worthington.

THREE SHOTS FIRED

The first serious clash between the union men and the imported employees occurred at 2 o'clock yesterday morning near the roundhouse. Shortly after eight guards had been stationed around the stockade, three shots were fired. Now a question arises as to the origin of these shots. Members of the state railroad police who were in the yards at the time declare the shots were fired from a pistol, presumably by union sympathizers. However, several switchmen and car-tappers were positive last night that three dynamite torpedoes were responsible for the three sharp reports in rapid succession.

SHOTS HEARD IN TOWN

The shots were heard distinctly in the business section of town and by many in North Park. At a distance the reports sounded like those from an automatic revolver. William Maher, a member of the city police department, was at the county jail with a prisoner and he heard the shots. Maher conducted an investigation and employees at the roundhouse declared that three torpedoes had been placed on one of the tracks near there.

SHOTS WERE TORPEDOES

Last night, several switchmen and car-tappers confirmed this statement and added that the dynamite caps had been placed on the tracks near the stockade. At that time the union men believed the eight strikebreakers had been unloaded at the stockade and were inside the high board fence when the shots were fired. The difference in opinion as to whether shots or torpedoes had been used last night, several policemen who heard the shots maintained that the reports came from a revolver.

IMPORTED MEN HERE

The strikebreakers were taken in charge by members of the state railroad police and hustled through the passenger gates at the depot to lodging houses in the business section, where the men stayed last night. Some occupied the cuts in the stockade and the union men believe the enclosure will not be used until after the strike is called.

More strikebreakers were expected last night but none had arrived up to the midnight hour. According to union men, the imported men will be used to replace the strikers. These men also stated that they believe the railroad company will send a dozen or more state police here if a strike is called. They also believe that fifty or a hundred strikebreakers will be deputized as state police in an effort to handle the situation.

CRISIS IS TOMORROW

The crisis is expected tomorrow when the men here expect that the strike will be called. All day yesterday and up to a late hour last night, the bolliermakers, machinists, car-tappers and switchmen held themselves in readiness for a telegram ordering a general walkout. That there will be trouble of a serious nature is conceded by both sides.

Yesterday afternoon, a half-dozen car-tappers, who are employed in the yards at night, arose from their beds early and appeared at the roundhouse armed with small iron bars.

EMPLOYEES ARE ARMED

However, these were not needed to keep out the strikebreakers as the railroad officials had anticipated such a move and outfitted the union men with a late hour last night, the bolliermakers, machinists, car-tappers and switchmen held themselves in readiness for a telegram ordering a general walkout. That there will be trouble of a serious nature is conceded by both sides.

EMPLOYEES ARE ARMED

However, these were not needed to keep out the strikebreakers as the railroad officials had anticipated such a move and outfitted the union men with a late hour last night, the bolliermakers, machinists, car-tappers and switchmen held themselves in readiness for a telegram ordering a general walkout. That there will be trouble of a serious nature is conceded by both sides.

Yesterday afternoon, a half-dozen car-tappers, who are employed in the yards at night, arose from their beds early and appeared at the roundhouse armed with small iron bars.

CLOVIS PLANS TO MAKE PHOTOGRAPH DISPLAY

Panoramic Views and Mounted Pictures to Be Shown at Fair

CLOVIS, September 28.—The Chamber of Commerce about two days ago, photographing interesting places about Clovis, and will make a fine display at the County fair of panoramic views and albums of mounted pictures. Preparations for a fine general exhibit are being made.

President McKelvey after an interview with the supervisors is having a map made of a proposed route for the state highway. An enthusiastic meeting of the chamber was held Wednesday morning to complete the plan.

Mrs. G. G. Carr has purchased the C. E. Higbee home at Fourth street and DeWitt avenue.

The reunion and dance of the Overseas Club at John Good's hall Wednesday evening, was a great social success. About fifty people participated in the festivities. The hall was beautifully decorated in green, the windows were hung with lace curtains draped in English fashion, and the whole effect was that of an attractive reception room. In one corner was an artistic alcove in green in which the musicians, Miss Ruth Hamilton, piano, and Warren Kincaid, violin, furnished the program of the evening. The officers of the club, Geo. Bouffice, Mr. Littledale and Mesdames Jenner, Hewitt, and Burrows received the guests.

Many beautiful and dainty gowns were seen, the bright colors lending variety and attractiveness to the occasion. Ice cream and cake were served, and the party dispersed at a late hour feeling that they had been treated to a delightful evening.

Mrs. Irene Kuhn is with her mother in Wheatland since Sunday, and is suffering from appendicitis.

Mrs. C. E. Higbee of Long Beach is in town on business.

F. Eastham of Fresno is in town on business, connected with the new Vase winery.

Clyde Stevenson left Monday for his home in Corvallis, Iowa.

Otto Harwell has sold his ranch south of town to J. M. Heiskell.

WIFE MAKES ATTEMPT TO BLACKMAIL HUSBAND

Sought to Obtain Money to Elope; Man Arrested on Charge Released.

MADERA, Sept. 28.—David R. Trujillo, who has been in jail under a charge of having written black mail letters to A. Peduzzi, of Raymond, for the purpose of extorting money from him, has been discharged from custody at the preliminary examination. It having been shown by the testimony of handwriting expert Kyba, that the letters were not written by the defendant, but that they were written by Mrs. Peduzzi. The examination took place in the justice court, and on the showing made, District Attorney Lacey asked that the case against Trujillo be dismissed. The case was done before the examination. Mrs. Peduzzi was confronted by the evidence and broke down, admitting that she was the author of the letters. It is believed that the woman sought to get money from her husband for the purpose of eloping with Trujillo.

MALAGA MATTERS

MALAGA, Sept. 28.—The Ladies' Aid Society of the Baptist church held their first meeting for the coming winter at the home of Mrs. E. H. La Rue on Thursday afternoon. During the business session, the following officers were elected for the coming year: President, Mrs. E. H. La Rue; Vice President, Mrs. J. Fred Jenkins; Secretary and treasurer, Mrs. C. S. Haycraft; social committee, Mrs. C. S. Haycraft, Mrs. F. S. Hagley, Mrs. Jessie La Rue, Miss Jennie La Rue.

Mrs. J. C. True of Wichita, Kas., who is making a tour of the coast, has been spending a few days most enjoyably as the guest of her former schoolmate, Mrs. M. Goodrich.

Mrs. Anderson and little daughter of San Jose (Chicago) were the guests of the former's cousin, Mrs. A. A. Tadlee, Friday.

LINDSAY TRUSTEES ELECT NEW MARSHAL

Also Provide Additional Fire Equipment; Four Building Permits.

LINDSAY, Sept. 28.—The city trustees last night appointed to the vacant position of deputy marshal and night watchman, William A. Widmayer, at a salary of \$80 per month. He takes office on October 1st. Mr. Miller, the incumbent, retiring on September 30. Fire equipment to cost \$175.75 was ordered. Five building permits were granted, four of the buildings being already in course of erection. The claim of W. I. Hodges for \$319.32, for option on the Navarre land, with interest and papers, was ordered paid. That is the land first proposed for the sewage farm and eventually rejected on the presentation of a strong petition from citizens and property owners interested in its vicinity.

PERSONALS IN NEWS FROM THE TOWNS OF CENTRAL CALIFORNIA

TULARE

TULARE, Sept. 28.—Mr. and Mrs. W. J. Hildon went over to Hanford this morning for the day.

Mr. and Mrs. J. P. Murphy are in Hanford for the day.

Mrs. H. A. Wilkinson of Fresno, who has been visiting here with her niece, Miss Grace Scranton, returned home this morning.

F. W. Franklin was a passenger to Hanford this morning.

M. C. Zerkow returned home last night after a few days visit to San Francisco and San Jose.

W. A. Higgins and Boyd Devenicks returned from San Francisco last night. C. A. Fox went to Hanford this morning to spend the day.

Miss Cecil Hitting went to Hanford this morning to spend a few days with friends.

J. P. McKinney returned to San Francisco this morning after being here for a few days on business.

A. D. Smith returned to Riverside this morning after spending a few days here.

Jesse Turner and E. P. Foster went to Selma this morning by automobile.

Mrs. C. E. Harper went to Visalia this morning to visit her parents for a few days.

Mrs. C. W. Clark of Guernsey is here for a few days, visiting friends and relatives.

Frank Mauler went to Los Angeles today for a week's vacation.

J. M. Slinkard returned from Fresno this morning.

Miss M. J. Smith, who has been visiting the J. W. Martin family for the last month, returned to San Francisco this morning. Miss Smith is a sister of Mrs. Martin.

SANGER

SANGER, Sept. 28.—G. E. Penland of Dunlap, superintendent of the M. and M. Mining Co., is here on his way to Oakland to buy machinery. He is accompanied by Mrs. Penland.

Miss Alice Barr of Sanger left Tuesday to attend the affiliated hospital in San Francisco.

Mrs. Etta Barnett came up from Taft today to spend a few days with Sanger friends.

Wm. Ellis is expected to arrive in Sanger tomorrow from Missouri.

A. A. Miller went to Los Angeles the first of the week and has just returned.

J. N. Little has gone to Coalinga on business. He is expected in Sanger again this evening.

W. D. Mitchell has gone to Los Angeles on business to remain indefinitely.

F. W. Garrison of Sanger has gone to Coalinga on business.

S. Warren Douglas returned to Sanger today after attending to business connected with the Y. M. C. A. convention held in Fowler.

Miss Charlotte Garrison will open the session of Sanger high school by a selected vocal solo.

WATER AND GAS CO. TO SELL TO CITY

Lindsay to Conduct Utilities According to Municipal Plans; Money on Hand.

LINDSAY, Sept. 28.—The stockholders of the Water and Gas Co. held a meeting Monday when it was finally decided to sell the plant to the city. It only remains for the city trustees to complete the necessary formalities before handing over the money which they already have in hand as the result of the issuance and sale of bonds which were voted some few weeks ago.

CASCARETS CLEANSE LIVER AND BOWELS

No Biliousness, Headache, Sick, Sour Stomach, Indigestion, Constipated Tongue or Constipation.

Furred Tongue, Bad Taste, Indigestion, Sallow Skin and Miserable Headaches come from a torpid liver and clogged bowels, which cause your stomach to become filled with undigested food, which sours and ferments like garbage in a well barrel. That's the first step to untold misery—indigestion, foul gases, bad breath, yellow skin, mental fears, everything that is horrible and nauseating. A Cascaret light will give you thorough cleansing inside and straighten you out by morning. They work while you sleep—a 10-cent box from your druggist will keep you feeling good for months. Millions of men and women take a Cascaret now and then to keep their stomach, liver and bowels regulated, and never know a miserable moment. Don't forget the children; their little insides need a good, gentle cleansing, too.

MARTIN INSPECTS ROAD INTO PRIEST VALLEY

Propose to Put Highway in Good Shape for Travel to Coast.

COALINGA, Sept. 28.—Supervisor Martin, Engineer William Price of the Associated Oil Company, and Road Supervisors Rose and Fowler made a trip over the Warburton canyon road yesterday in William Kinney's machine and figured on the amount of work necessary to put the road in good shape to the top of Priest Valley hill, the end of Fresno county. A survey had already been made by Purdee, and a large amount of work has already been done on the road to get it into a passable condition both by the county and the Associated Oil Company. The road is in good shape. It is believed that with the rebuilding of the road from Coalinga to the county line, a good road will be had from that point to the coast, either by way of San Joaquin and Hollister or through to Kings City and Salinas.

The road from Kings City to Associated station 5 is said to be in good shape, although dusty from a large amount of hauling being done. Automobiles, however, can take the Lone Oak canyon road, which is in good shape. The road in San Benito county, through the Bitterwater and part of the Priest Valley are said to be in fair shape, and work is now being done on them. With the work on the Fresno county end a good passage to the coast will result.

It is not known just how much work will be done on this road by Supervisor Martin, as his visit yesterday was to determine the condition and the amount needed to be done. It is likely, though, that work will be commenced soon. It was announced some time ago that the Associated intended to defray a portion of the expense incurred in rebuilding the road, but no announcement to this effect has since been made.

MADERA NEWS NOTES

MADERA, Sept. 28.—Curtis Hawley, a rancher living a few miles south of town, had his right arm broken in a runaway accident yesterday. His team became frightened and ran away throwing him out. The wagon was considerably damaged.

Judge Conley left for Los Angeles yesterday, having been ordered in that city by the governor to hold an extra session of the courts there on account of the congested condition of the calendars there.

The property owners living on B and D streets have agreed to have their streets repaved. They claim that they cannot afford it at the present time and to compel them to do so now will be to practically confiscate their property.

County Surveyor Smith is at work on a map to be used by the state highway commission in the locating of the proposed state highway. The map will contain the route of the highway along the Southern Pacific right-of-way as soon as the board notifies the surveyor that it will be the route of the state road.

LET CONTRACT FOR BUSINESS BLOCK

COALINGA, Sept. 28.—A contract to erect a one-story brick building with pressed brick front was let today to W. J. Ochs by Victor Bolger, A. D. Mcmenzie, Edwin Taylor and L. C. Mayhew, all of whom are directors of the Independent Meat Company, Inc., of this city. The building is to cost \$2,500 and is to occupy a space 50x60 feet fronting on Fifth street and the alley next to the Liberty theater.

The building will be built with a strong enough foundation to accommodate a second story and will be divided into two store rooms, one to be occupied by the Independent Meat Company and the other will be for rent.

The building is to be completed in sixty days.

TO PAVE DINUBA STREET

DINUBA, Sept. 28.—A movement is on foot here for paving the entire length of K street paralleling the main business street of this city. A meeting was held Tuesday evening looking to this end and a large number of the property owners of the street were present and when the meeting was adjourned it was found that a total of 1475 front feet were represented and that 1100 feet more were represented by proxy. The work is to cost \$8.75 per 25-foot lot, and will be done on the plan of Mr. Haynes with his grading and grading machine. It is expected that some three or four more streets are to come in on the general improvement work.

BELMONTERS DECIDE FOR AN OILED STREET

Opposed to Paving Until Recent Sewer Trench Is Fully Settled.

At a meeting last night of property owners of Belmont avenue, held at Kroeger school, it was decided to ask the City Trustees to grade and oil the thoroughfare. As the meeting was attended almost entirely by residents west of Fortnight, it was agreed that the recommendation should be understood as applying only to the part of the street west of Fortnight.

It was pointed out that conditions were different here from those pertaining to the street east of Fortnight. Part of the portion east is already curbed and if a street car franchise should be granted, it would be west from Fortnight.

This possibility afforded one objection to paving the street at this time, but the chief objection was the construction of the Belmont sewer. It was stated that it would be at least a year before the trench covering is fully settled.

Sharp criticism was made of the manner in which the sewer contractors had left the street.

SMYRNA FIG CROP IS CUT DOWN BY WEATHER

Consular Report Declares Care in Handling Is Enforced.

Vice Consul General Lucien Mcmaninger, stationed at Smyrna, in a translation from the Journal Commercial of that place, of the date of August 8, says of the fig crop that there is a shortage of 15 to 20 per cent of the apparent production, due to dropping, a result of bad weather. Especially because of the existence of cholera in that city, the article goes on to say, extra attention is being paid to rules for clearly handling of the product. The translation in full is as follows: "The Smyrna market is preparing for the next fig season, which will begin shortly."

"Information which we received in reference to the new crop is to the effect that the persistence of north winds and of dryness have injured the trees, which have been weakened and in several districts, according to reliable informants, have been unable to obtain the fruit, which has fallen in considerable quantities. It is reckoned that 15 to 20 per cent of the apparent production is lost; moreover, it seems certain that with present unfavorable conditions the fruit will be well nourished and will not attain a satisfactory size."

"That is the situation at present, but the remaining interval of time still to elapse before the complete maturity of the fruit may become favorable. Nights with a heavy fall of dew, as a result of the wind, which has now begun to blow during the day, and which probably will continue to bring coolness and humidity, may produce conditions favorable for the development of the fruit."

"Last year, under the pressure of the American market and of the American consular general in this city, acting under superior orders, Smyrna fig packers worked under conditions of cleanliness and hygiene formerly unknown here. The local authorities gave evidence of praiseworthy solicitude. The municipality formulated very severe rules concerning the cleanliness of factories and of workmen, and the Honorable Yemundia, inspector general of this vilayet, who inspired these rules and who, being charged with their execution, performed his task with a zeal of which every one is aware. * * * Everyone should gratefully remember the signal services which Dr. Yemundia rendered to the country last year in the crisis that the fig trade underwent."

"This year the same sanitary precautions will be applied under the supervision of the municipal officers. The Honorable Edman, the distinguished president of the municipality, has added to the old rules new obligations to which the fig packers must conform."

"The president of the municipality states that he attaches exceptional importance to the question of the fig business, especially in view of the conditions caused by the existence of cholera in the city. He says that he has taken all precautions on the strictest supervision over the factories, exercised by his subordinates; that two inspections will be made in the factories daily by doctors of the municipality in order to prevent by every means possible cases of cholera breaking out among the workmen during the hours of labor; that if by misfortune a person working in a 'chén' is found suffering from cholera, the ban will be immediately closed and work suspended pending new orders."

"For his part the American vice consul in charge of the consulate general in Smyrna will follow the same plan as that followed by Mr. Harris last year. He will exercise an active supervision over the factories; he will keep informed as to their sanitary condition; he will ascertain by personal inspection the conditions under which the work is done, and when satisfied as to conditions he will sign the certificate permitting entry of goods into the United States in the identical terms that the 'spécial invoice' of figs independently by consular was formulated last year."

PICKENS WARNED TO BE MORE DISCREET

Police Board Justifies Him in One Arrest, But Not in the Other.

The inquiry by the police commissioners last night into charges made by Fred Frisch and H. H. Wellborn against Patrolman William Pickens resulted in a decision that the latter's arrest of Frisch on August 28th in the Reserve restaurant was justified.

The second arrest, however, was found to have been unjustified, and the minutes of the commission read that Pickens was cautioned "to be more discreet in future."

The complainants accused the patrolman of conduct unbecoming an officer and advised the authority to impose imprisonment for about 25 minutes until released for a disturbance of the peace. The arrest was made after 2:30 o'clock in the morning. Frisch and Wellborn participated in loud language used by Pickens and his threats to "wipe the floor" with them.

All evidence agreed that Pickens was aroused by a remark made by Frisch that the policeman give his shoes a party and invite his trousers down to it, alluding to the fact that he had his pants down.

There was no conflict that Wellborn took no other part save to counsel Frisch not to cry but to submit to arrest.

For the accused the testimony by Frederick John Anthony, and Restaurant Manager Kaplan was that no bad language was used or heard by them. Ex-Chief Shaw affirmed that no orders as stated had been given for the arrest of Frisch and there was testimony of policemen of previous collisions had with the complainants. Captain Benth affirmed that Frisch habitually walked "with a chip on his shoulder" and as regards Wellborn that it is "not hard to get a quarrel with him."

Pickens denied that he used any foul or profane language, admitting possibly that he spoke in a harsh tone of voice.

Policeman Maher, who in the police court testified in favor of the complainants, did not give evidence last night at the public hearing because he did so would likely cause friction between brother officers but was called in at the executive session. In the police court the complainants were acquitted on the Pickens disturbance of the peace charge.

Second Day Of Fashion Show

Those wishing to make purchases should try to do so before 3 p. m.

From 3 to 5 our poser will again promenade in the interior of our store with beautiful hats and garments.

The Fresno Concert Orchestra will also play today from 3 to 5. A fine program will be rendered.

Mr. Bella Purt will play a violin solo.

You will find it much more convenient to shop before 3 p. m., for we expect a very large attendance again today from 3 to 5 to see the poser and hear the concert.

JOHNSON

Governor Johnson will speak in Fresno tonight in behalf of the constitutional amendments, particularly those providing for direct legislation and for the recall. That the governor is worth hearing all California knows. The subject on which he speaks makes the occasion even more significant. This is the first election California ever had purely for the determination of issues, rather than men. And the chief of these issues is whether for all time the people of California shall rule themselves, directly. In form, the people have always ruled themselves. In substance they have ruled themselves only when they had the fortune to choose rulers who remained responsive to their rather than to the interests which manipulated the mechanism of politics. We are rejoicing in such an interval now. But reactions, misunderstandings and failures are the fate of most men and the possible fate of any. The present administration will not last forever, and it may have many sorts of successors. But these successors can give only one sort of rule, and that is government by the people, if these amendments pass. If legislators enact measures which the people disapprove, the people can veto them. If they fail to pass measures which the people desire, the people can initiate and enact them. If elected officials prove unworthy of their trust they can be recalled and others substituted for them. Even the judges, the only irresponsible power in our present system, will be put under responsibility. The people will be given a tool, which they may rarely use, and then not always wisely, but which by its very existence, as a potential force, will make government responsive to the people. This will be eliminated and made permanent the popular revolution which began in the political upheaval of last fall. Governor Johnson, who personifies that revolution, will discuss the measures intended to depersonify it. It is a historic occasion, to be looked long back to, and is well worth while taking part in, while it is happening.

WAR

There will probably be no war between Italy and Turkey, over Tripoli, simply because Turkey can't fight. The Turks, once the most dangerous soldiers in the world, when fighting was done by men, have become the most helpless, now that fighting is done with machinery, money and organization. Bookkeepers and professors have made Europe invincible, against mere fighters. So Turkey will either surrender in advance, after an appeal to the Christian powers to apply the Christians' Golden Rule, and respect the national integrity of Turkey as they would that Turkey respect their national integrity, or else it will surrender after a war shorter than the British bombardment of Alexandria, in which all the fighting will be done on one side.

It is well. The Turk has no rights which anybody is bound to respect, or does respect. The protection of Turkey is not anybody's respect for its rights, but the Powers' respect for each others' rights to an equitable division of the spoils. Failure to agree on what that division should be is the only reason Turkey was not plundered long ago of all its possessions. England did take Egypt, Germany and France have taken Morocco and are now quarreling over its partition; and Italy is likely to take Tripoli. Turkey itself would have been occupied by Russia, if the jealousy of the Powers would permit. And, to whatever extent the Powers can agree, it is highly desirable for the progress of the world and the happiness and prosperity of the Turks themselves that they and all their dependencies be brought speedily and forcibly under some foreign rule. It may as well be Italian as any other.

This is not war. It is policing. It is the beginning of the executive and legislative departments of the final Federation of Mankind. For the present our highest unit is the nation, so each nation must be its own legislator, and enforce its decrees with its own strong arm. When it exercises that power to violate the integrity of another sovereign nation, it is committing, formally, an international trespass which may merely judicial international body would have to settle. But it is a trespass which certain nations must needs commit against certain others, and not vice versa. It must be regulated by a rule which works only one way. For the present, the jealousy of the Powers is the only check on unlimited aggression under that rule. It is a sufficient, indeed, an excessive check. Until the Powers combined, or any one of them separately, shall do to Turkey what Turkey must not do to them, the world is not yet policed.

CLOSING

The request of the Fair directors and the Merchants' Association that the business houses close for four hours on the afternoon of next Wednesday, for Fresno day at the fair, would seem to be moderate enough. The fair is a Fresno institution, for the public good, out of which no one makes any profit except what the fraction company gets for handling the people and what the merchants make out of the increased crowds in town. To close

for that portion of the afternoon of Fresno day when the crowds will be at the grounds would be very little business loss—none, if it is announced long enough in advance—and it would be an appropriate recognition, as well as an opportunity for a small army of clerks and employees to attend the fair.

STRIKE

A great railroad strike is evidently now inevitable. Indeed, the reply of Vice President Kruttschnitt to the Federation committee's ultimatum was practically an acceptance of that situation and a challenge to strike. There are doubtless many individual men who do not desire to strike, and Mr. Kruttschnitt's reply addresses its only argument to the motives which induce these men. But Mr. Kruttschnitt has misread the signs of the times if he believes that appeals to individual desire or interest can any longer control the acts of organized masses of men. The collective instinct has become stronger than the individual one, and it is, moreover, the orthodox one, sustained by the whole moral force of established sentiment and inertia. If a situation is presented in which the Federation, as an organization has to strike, that means that its individual members will strike also.

This means that a single operating company, on the one side, and 35,000 shop workmen on the other, may tie up the transportation and business of \$9,000,000 while they settle by stage or force a question which a really civilized country would determine by law. Regardless of the merits of the controversy itself—and on that we stand ready to demonstrate irrefutably that both sides are wrong—a situation like this is intolerable. No injury which either side of this controversy might inflict on the other could possibly compare with that which the two sides now join to impose on the innocent public. The right of that public is peace. The right of the two sides is a tribunal to which they can appeal for justice. Unless society provides a peaceful tribunal, the parties will find an unpacified one, and society will bear the cost. The imperative need is of some law, like the Weinstock Industrial Disputes bill, which will protect the peace of society while at the same time preserving the rights of the parties.

Directly and immediately, of course, this strike will not tie up the traffic of the railroads. It affects their manufacturing rather than their operating departments. Engines and equipment now in exceptionally good condition can run for some time without any repairs, and for a longer time with insufficient and makeshift repairs. Some men will not strike and some new men will be hired. But, in the long run, no department of a railroad can run with any other department crippled. You can not lay rails without coals, shovel coal without bookkeepers, nor run trains without lawyers. So if the shops are closed or crippled, eventually the train service will be demoralized also. The train men will not strike, but other departments on which the operation of trains depends, may be struck or crippled.

It is a serious menace, the beginning of which it seems now impossible to avert. The whole nation will pray that the final and more serious stages of it may if possible be avoided, or otherwise brought to an early and decisive termination.

CONFESSED

The investigation of the state printing office has reached the point where guilt has by inference been confessed. Innocent men court investigation, and do not raise questions of jurisdiction. No bank is obliged to open its books to the clearing house inspector, but every bank does, because to refuse to do so would be a confession that the accounts would not bear investigating. Such a bank would be subject to no penalty except loss of public confidence, but that is penalty enough. In the same way, no newspaper has to open its books to the representatives of the American Advertisers' Association, but all newspapers do so unless they wish to confess that they have been lying about their circulation. And any public official who does not wish to confess that his office could not stand investigation will freely answer the questions of a legislative committee, whether he is sure that committee has technical jurisdiction or not. Refusal to answer questions within the limits of the technical excuses, is the right of the defendant, in court, whose purpose is to keep out of jail. It is not the right of the public official, responsible to the public and desirous of retaining the public confidence. When the state printer, having already made the most damaging admissions in regard to certain criticisms of his office, peremptorily refuses to answer any further questions, and when the managers and agents of supply houses accused of overcharging the state refuse to give information to show whether they really overcharged or not, the inevitable conclusion is that the accusations are true. The people of California will make just this inference. If State Printer Shannon does not like the inference, he has his ready remedy. Let him answer questions.

THE FEASTING OF THE FALL
 Goshdy, Mister Mecklin' bird— you've waked the woods sleepin' spring. But pretty soon you'll risk an' feel the gray frost on your wing.

For fall time's a-comin'—
 The sun slants on the wall,
 An' Mister Squirrel's wakin'—
 For the feastin' of the fall.

Goshdy, Mister Mecklin' bird! We've leaved your music long,
 An' when your nest is empty we'll thank you for your song.
 Fall time's a-comin'—
 Wind like a keen fall;
 The harvest sleeps the lake
 For the feastin' in the fall.
 —Frank L. Stanton in the Atlantic Constitution.

BRIEF EDITORIAL FANCIES SELECTED

Governor Who Has Made Good

Governor Johnson comes to us tonight as a man with his heart in the task of restoring the government of California to the people, and as an official, who as far as he has gone has made good in his task. He is a man whose right for purity in official life has made him a national figure. He is spoken of as a presidential possibility in a few years to come. We are all proud of Governor Johnson, no matter what our political faith. We must acknowledge that he has conviction and spirit and strength to make them effective. His present trip over California is in the interest of constitutional amendments which he believes are essential to protect the people in their possession of popular government. He has his coat off working for their passage, because he knows that the people often easily follow him (and security and might in the future loss by apathy the fruits of their recent resurrection.

There are many people who are in doubt about some points of the recall, for instance. The amendment appears to have a heavy burden upon the man accused. A recall is easily instituted, and by putting several candidates in the field the official up for recall could be defeated by the very multiplicity of candidates against him. That is the point of the present amendment held by many who are for it in principle. Therefore the Delta trusts that there will be a splendid audience to listen to the governor explain these points. We also believe that his record of service and conviction, and his popularity from the people of Visalia and Tulare county. He is our good and faithful servant.—Visalia Delta.

Housecleaning Has Started

On all sides among lovers of clean government there is a feeling that Ralph has been elected mayor of San Francisco over McCarthy, the man who declared he would make the bay city the Paris of America. Americans do not care for any Paris in their midst, and the real reason for the repudiation of McCarthy and his policies. The election of Ralph is the first step in what is hoped will be the regeneration of San Francisco. San Francisco is about to keep open house to all the world and it is none too soon to start the housecleaning.—Porterville Recorder.

Bane of Unionism

Thousands of trades unionists voted for Ralph, because they know that the existence of their unions depends upon their own efforts and not upon the political fortunes of any man or set of men. In fact politics, the kind that is practiced merely to satisfy the lust for office of ambitious labor leaders, is the bane of unionism, and the intelligent union men, who are in the majority, continue to fight it. It is particularly when that peculiar brand of politics is responsible for the elevation to office of such featherweights as P. H. McCarthy, labor's most powerful champions will be found now, as heretofore, fighting in the ranks and earning their bread through the common good of head and hand.—Salinas Index.

McCarthyism Repudiated

Not only the people of San Francisco, but the people of California generally are to be congratulated upon the repudiation of McCarthyism in the election held in the metropolis Tuesday. McCarthyism, the newly-elected mayor, is a man of good ability and will give the city a clean, business-like administration. But the election of Ralph is not nearly so important as the defeat of McCarthy and McCarthyism. The popular endorsement of Ralph was a good thing, but the emphatic repudiation of McCarthy was a far better thing. The city government of San Francisco, with its rotten "Paris of America" idea, had become a stain in the moral life of decent people everywhere, and the effort had spread over the country to such an extent that the success of the Panama exposition was actually threatened. There is no doubt that many thousands of people will now come to the fair who would not have visited the coast in 1915 if McCarthyism had been continued.—Merced Sun.

Rejoice With San Francisco

There is a general feeling of satisfaction not only throughout California, but everywhere, that the people have been carried off the overthrow of McCarthyism in San Francisco. The overwhelming majority for James Ralph shows that the decent manhood of that city asserted itself, determined to reform that city and place the government on a proper basis. The popular unions have as much cause for rejoicing as any for they helped to defeat McCarthy and gave him majorities for the people's choice in the districts where they cast heavy votes. The vote shows that the intelligent, business-like people led by Andrew Furuseth and Walter McCarthy stood for better government in San Francisco and emphatically repudiated McCarthyism. They were pleaded with by national orators in the labor field who want to carry unionism into politics to elect McCarthy, but they stood for the better government of their city and earned the praise of all good citizens for their loyalty to San Francisco. And the business men who for this election gave their time to the cause of good government are to be congratulated. When such forces come together in a common cause the good people will triumph as they have triumphed in San Francisco.—Stockton Independent.

Tailored Waists 95c

Choice of linen, napoleon, or madras, tailored as you wish. An error of the day may cost you a great deal. We guarantee to please you. If you are not perfectly satisfied we will return the waist. We will promptly refund your money. We measure all the waist.

HALEBROS, Inc., San Francisco, Cal.

WHAT SHALL A WEALTHY MAN DO WITH HIS SONS?

It is a question which is doing the more harm—the tough of the slum or the idle rich. The latter have the greater opportunity for evil, though not so formidable a point of numbers. The devil always finds some mischief for idle hands to do. He is a well-worn maxim abundantly illustrated.

The natural man is lazy, and if he has the means to indulge slothfulness of mind and body he will do it most amusingly. As our glided youths have a status through their pocketbooks, they feel no inclination or necessity to read or do anything above the history of a battle or the programme of the next horse show.

Hence, we find brainlessness the accompaniment of rich efficiency. When one reads "No. 5 John St." he naturally thinks the character of young Murdock is a caricature, but a recent incident in the selecting of a jury in New York "society" and his sons in blood, with a local habitation and a name here in democratic America.

The whole story reminds one of the tale Seneca tells of a Scythian, who complained he could not rest well at night, and being asked the reason replied: "He found a rose leaf doubled under him, and it hurt him."

The youth we allude to is well-known in New York "society" and has some reputation as a whip. His father is a very rich man. This glided youth was subpoenaed as a talebearer. "He entered court," says the reporter, "with his walking stick held out before him, his horse show coat hanging about him, his black furred cap of looseness, his black hair parted fairly in the middle and plastered upon his skull with becoming tightness."

After showing that he had very crude ideas of what a jurymen was for or courts either, and not mind enough to listen to evidence or form an opinion from it, he was taken in-hand by the Recorder, who made things somewhat unpleasant for his glided highness.

"What is your age?" was the first question by the Court. "Twenty-nine," was the answer. "Are you engaged in business?" "No, sir," replied the glided youth. "I just go around with him. That's all. Further questioning elicited the following facts: The father looks after the estates of the family, the son does nothing, has no profession, never studied any; he has been summoned before for jury duty but didn't serve; he didn't feel very well; he has been against capital punishment ever since he read an article on the subject, some years ago, by an Oxford professor; he never reflected on the duties of a citizen to the community.

"Did you ever recognize the fact that but for organized law in this community you could not enjoy the life of ease that you have enjoyed under your father's guardianship?" asked the Court. "I suppose that is so," said the young man. The prosecution had challenged before the Court began its interrogation. "I sustain the challenge," said the Recorder. "On the ground of incompetency or general disability," inquired the assistant district attorney. "I do not wish unnecessarily to put a badge of discredit on any man," said the Recorder, "but he deserves it."

Then the young man went his way to some place of entertainment, meditating in his mind on the rude manner of lawyers and judges.

Now this is not pleasant reading, for it is natural to suppose that as wealth increases in this land so will the number of such youths enlarge. The question arises, is it desirable to possess vast riches if a great family is to be brought up?

The most serious problem a wealthy man has to solve is what to do with his sons. It is a question that society at large is interested in. The slums can be managed by police care, but what social force is there to restrain the licentiousness of youth protected by the power of money, social influence and caste?

Under the circumstances that citizen is the happiest, trust and best who can pray—"Give me neither poverty nor riches."—Santa Cruz.

ALFONSO'S WEAK GOVERNMENT CANNOT COPE WITH ANARCHY

Anarchists are never present in sufficient numbers to make a revolution. A situation like that which confronts the city of Madrid is the result of the activities of a few individuals of the extreme left, who at times of unrest send agitators among the masses to stir up rebellion. A movement thus inflamed from without is turned from its original object and made to fight for a cause the people do not really wish to see triumph. They go into the thing lacking the courage of their convictions, without which there can be no small enthusiasm and less cohesiveness. Under the rigors of martial law and in these days of rapid mobilization at any point of disturbance the mob spirit virtually is crushed before there is time to concentrate and barricade. "Brawling" "coblesters" are "EU" which for modern artillery.

However, vigilance and prompt measures are necessary. If peace and order are to be maintained in a country like Spain. This had not been looked to, it appears; hence the conspiracy had gained considerable ground before the authorities were alerted to what was going on. It is admitted at Madrid that the government, though aware of extensive plotting, permitted the situation to drift along while waiting for it to assume a more "definite character."

Thus are we reminded of Spanish rule in Cuba, where the policy of "manana" brought the island to a chronic state of revolution and finally forced intervention. Curiously, Weyler, the evil genius of Spain in Cuba, is in command at Madrid. Who but he could be in error as to taking steps to

THE PRAYER.

If on a Spring night I went by
 And God were standing there,
 What is the prayer that I would cry
 To Him? This is the prayer:
 "Oh Lord of Courage brave,
 Make firm in me a heart too brave
 To ask Thee anything!"
 —John Galsworthy, in the English Review.

A Skin of Beauty is a Joy Forever.

DR. T. Felix Bouraud's Oriental Cream or Magical Beautifier.
 Removes Tan, Pimples, Freckles, Blemishes, Redness, Itchiness, and all skin diseases. It has been used for years by the most famous beauticians of the world, and is so simple and so effective that it is recommended to all women who desire to have a clear, smooth, and beautiful skin. It is sold in all drug stores and by mail. Write for a free trial bottle to Dr. T. Felix Bouraud, 1234 Broadway, New York City.

PERFECT CONFIDENCE

Fresno People Have Good Reason for Complete Reliance.

Do you know how—
 To find quick relief from backache;
 To correct distressing urinary ills;
 To surely cure sick kidneys?
 Just one way — your neighbors know—
 Have used Doan's Kidney Pills;
 Have proved their worth in many tests.

Here's Fresno testimony:
 P. H. Leddy, Olive avenue, Fresno, Cal., says: "The drinking water I was obliged to use when living in Missouri had a bad effect on my kidneys. They became weak and caused pains in my back and sides that made it almost impossible for me to get around. I tried various kidney remedies, but nothing relieved me until I procured Doan's Kidney Pills. This preparation relieved every symptom of kidney complaint from my system and restored me to perfect health. During the past year I have had no need of a kidney medicine whatever. Doan's Kidney Pills have my hearty endorsement."

For sale by all dealers. Price 50 cents. Foster-McIlburn Co., Buffalo, N. York, sole agents for the United States. Remember the name—Doan's—and take no other.

On Fashion Shows And Fresno Men

The time seems particularly appropriate for Fresno's First Fashion Show. It will no doubt bring to the minds of many in our cosmopolitan population the Fall Festivals and Fairs of Europe which occur at harvest time. In many countries these occasions are the most picturesque and characteristic of the whole year.

In this valley with Fresno as its center and metropolis, the possibilities of such a show, especially in co-operation with the County Fair are almost infinite.

To be more specific it seems to be observed at this First Fashion Show that among other things our men are far behind our women in matters of dress. To be serious, there is a vast difference between being foppish and being well dressed. As our people travel more these distinctions become noticeable.

There is much of value as well as comfort in our men making a good appearance—as good as our women if they can.

We never recommend the over-niceties of jewelry fashions to men. It seems unmanly. But it does appear to us that by the little things of men's apparel such as the tie, the scarf pin, the character of the cuff links, the vest chain or fob and the appropriateness of their wearing; these little things are the reasons for our judgments of the good or bad taste of the wearer. And good taste is not a deplorable thing even for a man.

As experts on jewelry of quality and with a stock gathered from the factories of this whole country and Europe, we seriously believe we are entitled to the attention of the men of Fresno.

Visitors are perfectly welcome to our store, where you will never be solicited to buy.

As a coincidence with this occasion we have just now a Diamond Mounted LaValliere with two Hungarian Black Opals—undoubtedly one of the finest pieces of its kind in America. It is worth anybody's time to come and see its real and natural beauty.

Remember our windows are just the beginning of our story, so step inside.

THE LOCKWOOD System of Painless Dentistry

LECTURE No. 4.

There is nothing mystic about MY SYSTEM OF PAINLESS dentistry. It is based on certain well defined scientific principles. With the aid of various harmless medicines, which I apply to the tooth, I put it (the tooth not the patient) to sleep, for a length of time sufficient for me to prepare it for any needed work to be done. The medicines I use contain no cocaine, opium or any drug that is harmful. While I am working on the tooth or tooth the patient merely knows I am doing something to the tooth, but the sensory nerves being asleep, convey no painful impression. Really it's a very comfortable way to have your dental work done. If you have been accustomed to the usual methods used by dentists generally you can appreciate the difference. One trial of MY SYSTEM is enough to convince the most skeptical that my claims are not overdrawn.

Remember, I FILL, CROWN, REMOVE THE NERVE, EXTRACT, in fact perform any operation within the scope of dentistry and do it WITHOUT PAIN. My prices are reasonable, no more than any capable dentist would charge.

GENERAL CONDITIONS.
Since yesterday morning the area of
high barometric pressure, then covering
the north Pacific plateau, has moved in-
land over the plateau. During this time
a considerable fall in pressure has oc-
curred over Southern California resulting
in generally cloudy and slightly unset-
tled weather in the San Joaquin valley
and southern part of the state. It is
clear in the northern part of the state
and no rain has fallen in either part.
A disturbance covering the plains is
causing showers and thunderstorms from
Nebraska northward and showers have
also occurred in the region of the Great
Lakes and in New England. It is warmer
over the plains and decidedly colder over
the upper Mississippi Valley and Great
Lakes.

Local weather conditions will remain
slightly unsettled during today owing to
the shallow barometric depression over
Arizona. The sky will clear later in the
day and generally fair weather may be
expected tonight and Friday, probably
with some clouds at intervals. It will
be somewhat warmer tonight.

**MONDAY MORNING IS SET
AS TIME LIMIT FOR
VACCINATION**

**All Pupils Must Hand in
One of Three Certificates
or "Quit."**

**Smallpox Does Not Figure;
"Conscientious Scruples"
Law Valid.**

As a result of the visit here of Dr.
show, secretary of the state board of
health, Fresno will not be restricted
in order to handle the vaccination
problem and existing smallpox will in
no way figure in the collection of cer-
tificates from the pupils. At present
there are five cases of smallpox at
the pesthouse but all danger from an
epidemic is said to be over. For this
reason compulsory vaccination will not
be the order from the board of health.

Next Monday morning is the time
limit set by the Health Officer Alkon
for the collection of vaccination cer-
tificates in the public schools. Dr.
Alkon stated yesterday that the teach-
ers have been instructed to collect all
certificates Monday and make a record
of them. There are three different
certificates and each pupil must pre-
sent one of these or be excluded from
school.

"One certificate states that the bearer
has been successfully vaccinated either
recently or within the recognized im-
munity of seven years—in some cases
eight to ten years; one declares the
bearer is immune from vaccine after
having been tested with the needle
twice during the past month, while
the third comes under the "conscientious
scruples" section of the law. The
latter certificate is issued by the board
of health after the parents of the
pupils have declared their willingness
to permit their children to attend
school unvaccinated, and have stated
that they hold conscientious scruples
against vaccination.

The new order from the board of
health restores the vaccination ques-
tion to its original form as prescribed
by the new state law. For several
days after school opened, it was feared
the presence of smallpox in the city
would result in the compulsory vac-
cination of every pupil. Under this
same state law, the health board is
given the power to exclude any and all
pupils not vaccinated when smallpox
exists in the community.

To date, Drs. Alkon and Burke, of
the health board have vaccinated over
600 school children and issued cer-
tificates to 5,000 others who had been
treated with vaccine during the past
seven, eight or ten years. Very few
were re-vaccinated and most of the
500 were newcomers of youngsters just
entering the primary grades.

Dr. Snow stated yesterday that he
believed Fresno is the "best vaccinated
city in the state." He declared there
had been a misunderstanding of the
action taken by the state board of
health regarding the vaccination ques-
tion here. What the state board did
was to instruct Dr. Alkon to exclude
all unvaccinated children in case a
smallpox epidemic became certain.

However, the danger point is be-
lieved to be over, and for this reason
the vaccination situation returns to
the original form as prescribed by the
new state law. After all certificates
have been collected by the teachers,
they are to be returned to the board
of health for inspection, then recorded
and given back to the teachers for
distribution among the original hold-
ers. This work will take weeks and in
the end, there will probably be no
exclusions, owing to the "conscientious
scruples" section of the law.

LOCAL BREVITIES

Manuel Lopez was brought to the coun-
ty jail yesterday by the constable from
Fowler to serve a 90 day sentence on a
misdemeanor charge.

Claude J. Goodrich, second assistant
fire chief, and his wife, returned to
Fresno last night from a delightful trip
through northern California.

Because one of the witnesses was ill,
Police Judge Briggs yesterday afternoon
continued the preliminary examination of
John Jensen until October 7th. Jensen
is charged with a statutory offense.

Robert Lamule and John Woodman
appeared before Police Judge Briggs yester-
day and pleaded guilty to a charge of
vagrancy. They were fined \$5 or five
days in jail.

H. Kille, who pleaded not guilty to a
charge of drunkenness in the police court
Wednesday, was released from the county
jail yesterday afternoon by an order in-
sued by Police Judge Briggs.

Eugene O. Claude M. and Oliver M.
Thompson filed yesterday certificate that
they are doing business as cement and
general contractors under the name and
style of Thompson Bros.

W. T. Mattingly, F. D. Prescott and
W. A. Bean filed yesterday the \$2,000
bonds as commissioners on the opening
of Van Ness Avenue, on the basis of the
so-called Tietman boulevard curve. This
presages an early presentation of the re-
port of the commissioners.

M. Mikil, a Japanese, appeared before
City Justice Geo. B. Graham yesterday
and pleaded guilty to a charge of molest-
ing a bondmaid. He was fined \$25. It
was brought out in the testimony that
Mikil had been taking water from a can-
nel near Centerville.

A report was made at police headquar-
ters last night that the Southern Pacific
crossing at Tuolumne street had been
blocked by a train for twenty minutes.
Detectives Farnam and Goelring went to
investigate but the crossing was clear
when they arrived.

M. R. Madary to erect a \$1,000 60 by
205 open side lumber storage shed on the
railroad reservation, opposite San
Benito avenue, and A. J. Melchioran
to erect a \$200 dwelling on lots 2 and 4,
city block 205, were given building per-
mits yesterday.

The members of Good Intent Circle of
the First Christian church will meet with
Mrs. T. A. Hubbard at her home on Oren-
ter street this afternoon at 2 o'clock.
A large attendance is expected as this
will be the first meeting of the fall and
winter season.

Uran Hogan was sentenced to six
months imprisonment in the county jail
by Judge Austin yesterday. The district
attorney dismissed the prior conviction
for petit larceny, reducing the charge to
one of larceny. The lawyer was for
securing a valiant of women's under-
wear.

The suit of W. D. Trewhitt against
the Coalfield Brick and Tile Company
was adjourned yesterday by stipulation
with dismissal thereafter. The company
will within ten days pay Trewhitt \$500
and deliver certificate for 100 shares of
stock. Trewhitt agrees to release his
claim to certificate No. 2 calling for 1,000
shares and dated August 19, 1910.

Alton M. Deering reports an inheri-
tance tax appraiser in the estate of
Thomas H. Williams that Mrs. F. C.
Hendry, a sister, is owing \$15 and H. G.
Williams, a brother, \$115. The estate is
inventoryed at \$21,766.27, or \$21,567.61
plus value, the sister having an interest
in the estate subject to the tax of \$1,000
and the brother of \$2,000.

**Today's Interesting Fashion Show
News From Fresno's Largest Store**

The FASHION SHOW has brought to the notice of the people the
superb public service of this store. It has brought new evidence of the fact
that at RADIN & KAMP'S will always be found the NEW GOODS, and
merchandise that is practical—styles that will meet the instant favor of peo-
ple of good taste—in unmatched assortments, and at prices THE LOWEST
IN THE CITY.

For the two remaining days of the Fashion Show we have planned to
give concrete proof of this store's price making power. We extend a spe-
cial invitation not only to regular RADIN & KAMP customers, but also
to those who are not so familiar with the store as they might be to come in and
share in the extraordinary offers we present. You will find unmatched
stocks of fall goods when you come, and you will find that RADIN &
KAMP'S can serve you well and that it is the soundest sort of economy to
buy in this store.

**Extraordinary Offer of \$30.00
and \$35.00 Tailored Suits at \$25.00**

Our main feature for the Fashion Show is an extraordinary offering of the finest and most beautiful new autumn
tailored suits at a price that is positively \$5 to \$10 below their actual value. We consider the offer one of the very
best suit values ever made by any store anywhere. These handsome suits were made up for us especially for this
important occasion by one of our regular makers and embody the very best materials and workmanship, and they
are in the cleverest and most exclusive styles designed for the new season.

If \$25 is the price you are going to pay for your new fall suit, this FASHION SHOW SALE of new models
will greatly interest you, for it brings to you at this price tailored suits that you cannot duplicate elsewhere for a cent

There are over 100 suits in over 30 exclusive styles in the assortment and every one is a
high class, superb model that will please the most fastidious. Fabrics are ink-blue serge,
broadcloth and chevrons, and every fashionable novelty weave for the new season. Coats for the
most part are 28 inches long, and all are lined with Skinner satin or peau de cygne. Skirts are
plain gored or panel front and back; many with kick plaits on side. Full range of the new
autumn colors; sizes to fit everyone. In tailoring, materials, fit and finish these suits are equal
to any you will see anywhere priced at \$30 and \$35. Through our special order for the Fash-
ion Show all we ask you to pay for them is **\$25**

SOCIETY

A group of the "Pencil Day" Cap tains, who have been untiring in their efforts for the success of the affair.

That Fresno's first venture in having Fall Fashion Show is to be a marked success was proved before noon yesterday, the first of the three days' show. Crowds thronged the streets, and each store vied with the

Ends Catarrh

No Stomach Dosing. The San Joaquin Drug Company Guarantees Hyomei, the Old Reliable Remedy.

You can get rid of hawking, spitting, snuffles, discharge on tissues and foul breath if you will only try Hyomei. You can get a complete HYOMEI Hygiene Kit High-Grade outfit for \$1.00 with a guarantee that if it does not end the misery of catarrh, you can have your money back.

Catarrh is caused by germs, and the only way to kill these germs and force banish catarrh is to breathe HYOMEI, an antiseptic, vaporized air that hundreds of thousands have used with wonderful success. Bear in mind that there is no cocaine, opium or other habit-forming drug in HYOMEI, and that it is pure, natural Eucalyptus and other antiseptics.

For catarrh, asthma, catarrhal deafness, colds, croup and coughs HYOMEI has no equal.

If you already own a HYOMEI Inhaler, you can get a bottle of HYOMEI for only 50 cents at the San Joaquin Drug Company and druggists everywhere.

The Prettiest Wall Paper

There are many kinds of wall paper and you can find them at our place. We have it in all prices and in every quality. Come in and see our new and pretty patterns. We have paper coming all of the time so you are sure to get the very latest ideas and patterns.

Patterson = Dick

1937 Fresno Street. Phone 555.

FOR CONSTIPATION

A Medicine That Does Not Cost Anything Unless It Satisfies.

The active medicinal ingredients of Ricall (underlies), which is odorless, tasteless and colorless is an entirely new discovery. Combined with other extremely valuable ingredients, it forms a perfect bowel regulator, a natural invigorator and strengthener. Ricall Underlies are eaten like candy, and are notable for their agreeableness to the taste and gentleness of action. They do not cause griping or any disagreeable effect or inconvenience.

Unlike other preparations for a like purpose, they do not create a habit, but instead they overcome the cause of habit negativity, constipation, and harsh phlegm, and permanently remove the cause of constipation or irregular bowel action.

We will refund your money without argument if they do not do as we say they will. Three sizes, 50c, 25c and 10c. Sold only at our store—The Ricall Store, The Monroe Drug Co., 2003 Mariposa St., Fresno, Cal.

others in showing just what was the most beautiful thing they had in stock. And a dazzling display of beautiful combinations of materials and colors the various windows displayed. For the several popular colors of the season, purple in all tints and shades seems to be winning first place. Many of the evening coats are far more elaborate than those of previous winters, and suggest a handsome limousine for a background. Hats that are of bewildering assortment of shapes, and the most impossible looking combinations of feathers, lace and fur, often turn out to be a most bewitching chaparral when properly adjusted on Missy's hair.

Of the novelties which are being shown, the handbags come in for a large share of admiration. Silk bags are lavishly embroidered, and some of the novelties in designs introduce spanglies with the handwork.

Miss Nell Benjamin, the popular Southern girl who claims many warm friends in Fresno, since a several year journey here a few years ago, is making a brief visit while enroute to her home in Memphis, Tenn., being the guest of Miss Margaret Kenyon. Miss Benjamin will stop off in Modesto and San Francisco, before continuing her journey westward.

Mrs. Garcia and Mrs. S. F. Patrick, of Visalia, are among the out-of-town shoppers during the Fashion Show.

Mrs. Oliver Hawes, of Los Angeles, is spending a few days in Fresno, being a guest in the Horace Hawes household on S street.

Mrs. Frank Patton and her attractive daughter, Miss Dagmar Bradford, of Kern, were among those from out of town to witness the first day of the Fashion Show.

Saturday afternoon will be "Rally Day" for the Juniors of the Young Women's Christian Association, and with the interest which is being taken in the affair promises to be a big success. The youngsters have been busy planning out a most interesting program, and a jolly good time is in store for the guests.

Mrs. J. H. Harter and her daughter, Miss Inez, will leave next week for San Francisco, where they will enjoy an outing of several weeks.

Mrs. George E. Church plans to spend several weeks of October in San Francisco.

The members of the Girls Glee Club

STEIN-BLOCH SMART CLOTHES

And Now we can Fit You in Fall Overcoat or Suit, the Best Values in Town

You probably have been fit for time and again in either or both of these at our store, and because you were treated to the same deal, you can be sure to get the same result. And this treatment and method of fitting our clothing means that you will get a big head start in your wardrobe. You come to us with your clothing problem, and we can solve it for you. Our clothes are STEIN-BLOCH SMART CLOTHES, and no clothes we have seen can equal them in value, style and fit. Prices from \$20 to \$37.50

MAURICE BORPHURO
Most Reliable

CLOTHIER AND HATTER
1023 and 1025 I St., Fresno, Cal.

will take the initiative in entertaining in high school musical circles. On Saturday evening at the handsome new auditorium, the orchestra and the Boys Glee Club will be the guests of the sister organization.

The evening's gaieties will be ushered in with some jolly games, progressive A. B. C. being given the lead. Dancing will follow, and delicious refreshments are to be served in the intervals. Knowing the ability of the young entertainers, there can be no doubt as to the pleasure of the occasion.

The Glee Club's membership is composed of Misses Bessie Bryant, Elizabeth Davis, Lillian Elder, Lucile Ellis, Edith Hutchinson, Beulah Hart, Vivian Harvey, Emma Ingles, Marian Lyness, Edie McGowan, Blanche Shuck, Marie Schwarz, Sarah Strother, Ruth Stutzman.

A union meeting of the Home and Foreign Missionary Societies of Fresno will be held at the First Presbyterian church on Sunday afternoon at 2 o'clock. The object of the meeting is to arouse enthusiasm and plan for the post-jubilee campaign which is to be conducted during the third week of October. The meeting is in the hands of the presidents of the societies, though all the members are expected to be present.

On of the interesting events in high school circles will be the reception to be given this evening by the girls of the senior class in honor of the boys of the same class. The beautiful new home of Mr. and Mrs. H. H. Dix will be the setting for the affair, when the young daughter of the house, Miss Emma Dix, will act as hostess. Dancing and games will be enjoyed, and tempting refreshments will be served.

Miss Irma Perrin was the hostess at an informal evening of cards on Wednesday evening, entertaining a coterie of congenial friends who have enjoyed a number of these impromptu gatherings. The regular game of "500" filled the evening hours with pleasure until later, when refreshments were served.

In the party were Misses Maribel Barber from Lawrence, Kan.; Edith Higgins, Margaret Jolla Harris, Ruth Dickinson, Jessie Brown, Leona Schaeffer, Messrs. Laurence and Perry Pierson, Arch Jack, Reed Schaeffer, Will Traxner, Herbert Levy and Herbert Gundelinger.

Only one more day remains until the long anticipated "Pencil Day," when the members of the Girls Glee Society will sell pencils for the benefit of sweet charity. Since the organization of this society last spring, so much good has been done in a quiet way that the need for a society of this sort has been forcibly impressed upon those in touch with the "causes." Pencils will be stationed over the business sections, and will serve as booties from which supplies may be obtained by the sellers. The board of directors and the officers of the society will be at the head of a group of members to sell the pencils and will be responsible for the supplies. It is expected that several hundred dollars will swell the treasury of this worthy organization.

Miss Ruth Monasse, a popular Hanford girl, is the guest of Mrs. Ben Epstein during the Fashion Show.

Mrs. Frank Connolly has as her guest Mrs. W. E. Street of Selma, who is enjoying the fashion pageant.

FASTEST HARNESS RACING YET SEEN ON COAST FOR FAIR HERE

Del Rey Added to Attractions and Will Go After World Record; Coast Racing Mark for Season, 2:05, Expected to Be Beaten.

Harness racing the fastest and classiest ever seen on this coast, the star of the fair and northern meets not excepted, is declared to be assured for the Fresno County fair, which opens Tuesday next. With the arrival in Fresno last night of Charles Del Rey, one of the well known coast trainers, it became known that there will be at least three record-amateurs among the horses that will appear here. And it is declared that not only will all track records here for exhibitions and racing be broken, but very probably at least two world records will go down, if the horses step up to form.

The most important announcement that followed Del Rey's coming was that Del Rey will be here. Del Rey, trained by Hazard and Shub of Dixon, Cal., and trained by Del Rey, is believed to be the fastest living 3-year-old pacer. According to the form experts, this colt has done in exhibition 2:05 1-4 on a slower track than the one here, while this world record for his age is 2:05 1-2. And Del Rey is said to be faster now than when he stepped ahead of time. Contracts for his appearance here were closed by Secretary Eberhart last night. He will go out on an exhibition mile for the world's record here Wednesday afternoon, which is Fresno Day. He is to arrive here on Sunday, from Pleasanton and will be worked out a day or two to get him used to the track.

Further, Del Rey has announced that he will bring here Jack Pointer, a brown pacing stallion, by Star Pointer, 1:59 1-4. This stallion will also be put over an exhibition mile and is expected to shave down the time.

RECORD HERE DOOMED.
Fresno's track record is 2:05 1-2. It is believed that this will be the time when the fastest of the stock that will race here get going. The star event promises to be between Teddy Bear, 2:05, and Adam G. The former's mark, which was done this year, is the fastest that has been set on any track since during 1911. And Del Rey predicted last night that in racing here, this class pair will do it. In 2:03 or 2:04—the fastest racing ever seen in Central California, the fastest seen on the coast this year, and about

as fast as anything that has ever been run on the coast.

A large amount of work has been done lately in putting this track, which is naturally fast, into the best possible shape, and it is believed nothing has been left undone to assure the breaking of a few top-top records here.

And in the background of all this is Copa De Oro, the fastest of all the pacing kind, with a mark of 1:55, and now being driven at Hanford. A telephone message from Hanford to Secretary Eberhart yesterday announced that if the phenomenon appears here as scheduled, a special train may be chartered from the Kings county seat on the day of his appearance, just to bring the crowd to see him go round the course once more.

ROADS GRADED.
For accommodation of the traveling public, roads leading to the fair grounds have been carefully worked and graded by the supervisors and are now in splendid condition. These include Ventura, Tulare and Butte avenues. Also, an entrance for automobiles and buggies has been installed at the south side of the fair grounds, on Butler avenue, as well as on Ventura avenue, at the north.

Arrangements were made yesterday to have a chemical engine in the park all through the fair, to lessen fire danger to exhibits and stock as well as spectators.

Among the novel features just received is an entry of an exhibit of "mule footed" hogs. These will come from Hanford, and be among the freaks shown.

The deep sea divers, who are to appear in a big glass tank at the fair and show just how the men who work on the floor of the ocean go about their task, arrived in Fresno yesterday and placed their apparatus on exhibit in a store window, where it attracted a great deal of attention all day. This is one of the star features of the special amusement concessions that have been let this year.

Apparatus has also arrived for the elaborate display of fireworks, that will be given on Wednesday and Friday nights, at a cost of thousands of dollars.

MAN'S RECORD AS LAW-MAKER PARTIAL FAILURE; GIVE WOMAN A CHANCE TO MAKE THINGS BETTER

(By C. R. PULLIAM.)

"Men do not legislate for the masses from their own experience," but we must expect to reap the harvest of what we have sown.

For 135 years the men of this country have been legislating, and we are now reaping graft in the high and low places in town, city, country, state and nation. And the worst feature of the case, to my mind, is the statement of seemingly good men that "they all do it." "You can't help it." The present political conditions of this country almost force a candidate for office to spend more money to secure the office (note the case of an Illinois Senator), than the office is worth in dollars and cents, and as a result of that condition men resort sometimes to questionable methods to recoup their fortunes, expended in securing the office.

As to such an extent has this putting up election expenses been carried that the office-holders, themselves, have made a great bluff, and have passed laws in both the state and nation, limiting the expenditure of a candidate for most all elective offices.

But these laws are all made by legislative bodies which are dominated by lawyers, and the laws are so ambiguously drawn that the Judges of the different courts, honest and able as I believe most of them to be, have a very difficult task to properly construe the laws of the land, owing solely to the ambiguity of the lawyer.

CANINES ARE BEING POISONED ON F ST.

Residents in the 1600 block on F street are very much excited over the fact that some one is poisoning dogs in that neighborhood. Yesterday John Soranzo of 1601 F street registered a complaint with the police about the affair. He declared that Wednesday night some one threw poisoned meat into his yard and as a result four of his dogs are dead. A next door neighbor also lost a dog by poisoning, and this brings the total up to five. Neighbors are very much worked up over the affair and many are afraid to allow their dogs in the Soranzo yard. Chief of Police Jones informed that he will not do anything unless the identity of the guilty person was learned and then the police would take action against him.

REFUSED TO SEND CHILD TO SCHOOL

Truant Officer E. P. Stafford appeared before Justice Graham late yesterday afternoon and swore to a complaint charging Henry Rolph with failing to send his children to school. The charge is a misdemeanor. This is the second case that has been brought to the notice of the court by the truant officer. A Russell, who recently fined a father for refusing to send his child to school. The warrant was turned over to Stafford to serve, and Rolph will probably be arrested and brought into court this morning.

FRANCHISE LEAGUE.

The Club Women's Franchise League met last night in the lecture room of the Unitarian church to plan for the remainder of the local campaign and to arrange for having workers at the polls on election day. Mrs. F. A. McMahon presided.

It was announced that Miss Gull Laughton, a lawyer of Denver, would speak at the county fair Tuesday afternoon between 1 and 2 o'clock and in the evening at the county house park, from the headstand.

The league will have a booth at the fair in charge of Miss Eugenia Miller and a corps of assistants.

J. W. Copeland of Dayton, Ohio, purchased a bottle of Chamberlain's Cough Remedy for his boy who had a cold, and the boy's cold was gone. It is not better than to pay a five dollar doctor's bill. For sale by all dealers.

House of comfort, Hotel Marx, the popular headquarters for Fremontites while in San Francisco.

Pincetier is coming?

WHILE you are viewing Our "Fashion Exhibit"
You will see that this is the only store that meets the wants of business men, professional men, young men, college men and boys—the best dressers in every class.

KEEPING IN TOUCH WITH HOME

IT IS wonderful how much satisfaction can be obtained from a talk over the Bell Telephone.

A letter carries words, but the Bell Service has been brought up to such a point of perfection that the modulations of the voice are clearly heard. The cheery tones show that the talker is well and in good spirits. The call may come from a suburban village or a distant city, but within the limits of the carrying power of the voice the Bell Service carries the tone as well. You get a personal interview with a friend hundreds of miles away.

The Pacific Telephone and Telegraph Co.

Every Bell Telephone is the Center of the System.

"THE FLIRTING PRINCESS" HAS GREAT STAR IN HARRY BULGER

Harry Bulger, who comes to the Bar ten next Thursday evening in "The Flirting Princess."

Harry Bulger, whom Mort H. Singer is starring this season in "The Flirting Princess," is getting farther and farther away from the "tramp" characters, with which managers burdened him for years. Bulger originated more funny tramps than any man on the stage.

LOOK AFTER YOUR HEALTH

If Your System Is Kept Toned Up You Will Escape Many Diseases That Find Easy Victims Among Pale People.

Enough of the average human body every day to cause death if the healthful organism did not combat these germs and render them harmless.

Let the human system become run down, or debilitated, and the power of resistance to disease is weakened. Soon the disease germs get the upper hand, an acute sickness follows or the patient becomes a chronic invalid.

It is in the blood that the battle to maintain the health is fought. Keep the blood toned up, the bowels open and observe ordinary care as regards food and rest and you will avoid much sickness.

Debility is not a recognized disease but is a condition in which the sufferer cannot get a good night's sleep, wakes up all tired out, has no strength or ambition, is nervous, has poor appetite, has trouble with the stomach and is subject to headaches and backaches.

It is most commonly met with in people who have to work hard, are confined indoors, eat improper food or have worries and grief.

The case of Mrs. M. V. McCaslin, of No. 202 South 27th Street, Lincoln, Neb., shows the value of Dr. Williams' Pink Pills as a tonic for all run-down conditions of health. She says:

"I gave Dr. Williams' Pink Pills for Pale People a trial for general debility from which I had been suffering about three years. I was thoroughly tired and worn out and had no ambition for anything. I became very weak and kept losing strength. My appetite was poor and I was nervous and had severe headaches."

"I needed a tonic treatment and tried several tonic remedies but none seemed to help me until I tried Dr. Williams' Pink Pills for Pale People. I was soon much improved in health and able to get around and to my work. I took the pills until cured and am pleased to recommend them to any one who is run down in health."

Dr. Williams' Pink Pills are for sale by all druggists, or will be sent, postpaid, on receipt of price, 50 cents per box; six boxes for \$2.50, by the Dr. Williams Medicine Co., Schenectady, N. Y.

Send today for a copy of our free booklet, "Diseases of the Blood."

REV. RAY O. MILLER IS GIVEN CHARGE OF EPISCOPAL MISSION

"High Church" Methods in the Christian Church Cause Change.

Rev. Ray O. Miller, who resigned some time ago from the pastorate of the First Christian church of this city after troubles had been raised by the "reactionary" element of the congregation, because of so-called "high church" methods used by Miller in his services, left here with his family yesterday for Tuolumne, Tuolumne county, where he will have charge of an Episcopal mission.

His decision to go into work in a church where "high church" methods of service are accepted is declared to have been reached at the time that he found himself condemned by about half the church here, and upheld by the other half in his progressive methods. In his mission work, he is to study for some time, first to reach the rank of deacon and then of pastor. A number of examinations will be necessary before he is fully qualified.

That rupture over Miller has not heated in the church here, and no pastor has been chosen for the future, as yet.

FWOLVER OFFICER ARRESTS YOUTH

Julius Waddie, aged 18 years, was lodged in the county jail yesterday afternoon by City Marshal James Fowler. Waddie has been around Fowler for several days acting in a strange manner and yesterday he was taken in custody by the officer on a vagrancy charge. When searched at the county jail, a number of suspicious letters were found in his possession. One of these letters referred to a cattle deal in Montana, which according to the writer was a fraud. The officers will make an attempt to locate the writer of the letters and find out what he really knows about the supposed fraud. Waddie recently served a 30 day sentence in the local jail for breaking into a box car at Kernan.

JAPANESE REFUSES TO TALK IN COURT

Y. Yumakaka, a Japanese, appeared before City Justice Graham yesterday to answer to a charge of vagrancy but as the Oriental refused to answer to his name or say one word, he was returned to jail to await a time when he finds his speech. The officers say that Yumakaka can speak English but that he just refuses to talk to be stubborn. The Japanese was arrested last week at Parlier when he attempted to make his exit out of a Japanese lodging house which the officers were going to search. He was suspected of being connected with a robbery case at Selma but the victim was unable to identify him as the man who held him up.

CHINAMAN FINED FOR CARRYING GUN

It took John H. Franklin, a Chinese interpreter, but three minutes in the police court yesterday morning to furnish Police Judge Briggs with the facts in regard to Wong Lem, a Chinaman, who had been arrested for carrying a concealed weapon. Lem through the interpreter informed the court that some time ago while in Fresno an attempt was made to rob him. Since that time he carried a gun for protection. The story had no effect upon the decision of the court and Lem was fined \$10.

FACES DEATH IN FIGHTING DIVORCE

Yet Mrs. Clanton Asks for Money to Make Defense Under Protection.

Mrs. Maude A. Clanton, the defendant in the divorce case of William Clanton, asked the court yesterday for an order allowing her money, stating that she is in indigent circumstances and needs \$5 for the support of herself and child and for her attorney's fee in preparing her defense. She asserts that her husband is really owned by his mother and the mother is only trustee. This property is worth \$1000 and as she says, belongs to her but through threat and gross cruelty inflicted by her husband and his father she was compelled to join the husband to deal the land to his mother. Mrs. Clanton further says in her affidavit that she and child were driven from home in Fresno to her parents' home in Mariposa, the husband having threatened to kill her if she ever appears in this divorce action, wherefore she absents herself under the protection of her father and declares she will need his attendance and presence whenever she does return to Fresno for the prosecution of her counter charges. These all charges in her affidavit are embraced in her cross-complaint charges.

BIOLETTI ATTENDS KERMAN INSTITUTE

Prof. Frederic Bioletti, viticultural expert of the University of California, arrived in Fresno last night after attending the Farmers' Institute held at Kerman yesterday. He declared the institute one of the best he has ever seen. There were over a thousand people present. Prof. Bioletti stated that he has not had time on this trip to look over the condition of the vineyards in this region.

Poslam Quickly Clears the Skin

Heals Aggravating Affections. Causes Them to Disappear.

To quickly clear the complexion, drive away pimples and blemishes and impart a healthy skin tone, Poslam, the perfect skin remedy, is unequalled. Besides its employment for the quick cure of eczema, acne and various other skin ailments, it is useful in every condition where the skin is diseased, irritated or inflamed.

Poslam is popular among the theatrical profession for protecting the skin from the use of cosmetics; it is used for its soothing, antiseptic properties after shaving, preventing infection, dandruff, itching, etc. It dissolves dandruff, cures scaly scalp, takes away soreness from burns, scalds, stings, bites, itching feet, etc. Poslam contains no poisonous ingredients.

Poslam is sold for 25 cents by Geo. H. Moore & Co., and all druggists. For a free sample write to the Rosemary Laboratories, 22 West 25th Street, New York City.

Poslam Soap, recommended with Poslam, is the best soap for your skin. Antibacterial, delightful. Large cake, 25 cents.

PLANS THREE AREAS FOR LATERAL SEWERS

City Engineer Jensen Computes Assessment Districts for Belmont Sewer.

City Engineer Jensen is working on maps and the other preliminaries for the formation of three assessment districts for the lateral connections with the main Belmont addition sewer in districts 4, 5 and 6.

District 4 is the territory comprising the additions west of Portchamper avenue, 5 the tier of blocks between Van Ness and Portchamper and 6 between Van Ness and 1st Street, Belmont north to Olive avenue. The lateral sewer in these districts will be more costly than in the remaining territory to be sewer drained by the main, connecting by 6-inch lateral pipes running in straight courses to the main line over opened streets and alleys.

In district 4 the lateral will run in the alley west of Portchamper northward through Meadow Brook tract, Burlington Villa Park, Dunbar tract Nos. 1 and 2 and El Capitán, but rights of way will have to be secured over private land between Dry Creek or Cameron avenue and Webster, beyond which there is open alleyway right of way again for one block between Webster and 1st.

Because of the long distance of almost level grade, 8-inch for 6-inch pipe will have to be put substituted, and besides to drain territory off the main lateral connections will have to be made necessitating in this district about nine manholes, each manhole costing \$25 for construction.

Property owners in this district have petitioned for this assessment district to make the cost payments easier.

District 5 will also have to put in manholes. Conditions in that district are very similar to those in 4—that is to say there is open alley right of way from Belmont to Thomas with rights of way to be secured over private property from Bremer avenue to Dry Creek. There will be difficulty in securing these rights of way. But the cost of the lateral sewer in these districts will be more than in the annexed territory east of these with simple laying of 6-inch pipe in open streets and no manholes for side drain pipes.

MINERAL PRODUCTION OF STATE SHOWS GAIN

In Round Figures Will Approximate Ninety Million, Says Aubury.

State Mineralogist Aubury has sent to the State Superintendent of Printing statistics for several bulletins to be issued by the state mining bureau, in which the several phases of the progress of the mining industry of California will be set forth in such detail. These bulletins will include one showing the mineral production in detail for each county in the state in 1910. Another will contain a summary of production by the state at large for a period of twenty-four years, 1887-1910. In this the output of every mineral substance that is produced in California will be given by years and also summarized in totals for each substance during the period of twenty-four years. The third of the series will include a review of the production, in detail, for each of the counties during a period of ten years; the complete returns for each county in 1910; the returns by substances, as grouped so that the reader will readily see where each substance is produced by referring to the appropriate headings; also incorporation, conservation and forestry laws of the state, and mining laws for the guidance of all who are interested in mining and allied industries; and with these will go a series of carefully delineated county maps and also statistics regarding the population, property, area, etc., of each of the counties. The bulletins will make up a booklet of something more than 100 pages of closely printed matter.

FRESNO PUBLIC TALKS OF MUNYON

Local People Tell of Results for Stomach and Rheumatism.

One of the most remarkable features about the opening of offices in Fresno by Dr. J. M. Munyon is the extraordinary amount of attention he has attracted here and the immense crowds that have been flocking to see his doctors. Your headquarters have been thronged all this week by visitors from this city and vicinity, all with ailments of one sort or another, to be cured by the famous "Eckman's Alternative." Most notable is the fact that rich and poor come to him alike. A few hours spent at the side of the physician has a most interesting and in many cases, a most successful result in human nature.

Many remarkable cases of relief secured were related this week. One was from a man who had suffered from more than 20 years. He said: "I think I had one of the worst cases of stomach trouble, on record. I could not digest anything, food fermented in my stomach and formed gas, which pressed out in the abdomen and up under my heart and at times made me feel as if I was going to die. I had intense headaches and frequent attacks of dizziness, and I grew short of breath when I attempted to walk. I came here a short while ago and took Munyon's full course of stomach treatment. Now I must admit, I feel like a new man. I can now eat anything without any discomfort afterward, and all of the other symptoms of my trouble have disappeared. I feel better, my head is much clearer, and my brain works better. I am full of ambition and energy, and enjoy life hugely. I can never tell how glad I am that I had the good sense to try this Munyon treatment."

Another enthusiastic visitor was a woman who declared that her mother gave her relief from a most remarkable manner. She said: "My mother was flat on her back in bed with rheumatism, sciatic, muscular and inflammatory. Doctors had pronounced her case almost incurable and we had about given up hope of her ever being able to walk again. I procured a treatment for her from one of these Munyon doctors, and today she is able to get about the house with perfect ease and can go outdoors, and, in fact, do anything that a woman of her age might be expected to do. The rheumatic pains and inflammation have entirely disappeared. I think this Munyon treatment is a positive wonder worker."

It was announced that Munyon's doctors would be on duty every day this week from the hours of 8:30 in the morning to 5:00 in the evening to meet all who call at Munyon's offices, Rooms 351 and 352 in the Forsyth building.

SHOWS U. S. PROGRESS IN MATERIAL RESOURCES

Wonderful Growth of 111 Years Set Forth in Amazing Figures.

"Statistical Record of the Progress of the United States, 1600-1911" is the title of a small document just issued by the Bureau of Statistics, Department of Commerce and Labor. It pictures in statistical form conditions in the commercial, financial, industrial and transportation systems of the United States at brief intervals since the year 1800 down to, and in many instances including the year 1911. In those cases in which the subjects considered are measured by governmental fiscal year periods, the figures for the fiscal year 1911 are included. In those in which calendar year periods are used, of course, statements can only terminate with the calendar year 1910.

Among the interesting facts shown are that the area of continental United States was 3,632,555 square miles in 1600, advancing to 1,344,630 square miles in 1853, since which date no change in area is shown. The population which was five and one-third million in 1600, was ninety-three and three-fourths millions in 1911. Public debt, which was eighty-three million dollars in 1800, reached 2,675 million dollars less cash in treasury in 1863, the figures for 1911 being 1,015 million dollars. The per capita debt, which was \$15.63 in 1800, and in 1865 \$76.39, is in 1911 \$100.83. The interest charge per capita, which amounted to 64 cents in 1800, and 34.15 in 1865, was in 1911 29 cents, and the total amount interest charge was in 1865, 146 million dollars, was in 1911, twenty-one and one-third million dollars. Money in circulation, stated at twenty-six and one-half million dollars in 1800, was in 1911, \$3,228,637,000, and the net currency circulation, which was in 1800, \$4.59, was in 1911, \$31.35. Deposits in all banks in the country cannot be shown earlier than in 1870, at which date they are set down at a little over two billion dollars, and in 1910, over fifteen billion dollars. The number of depositors in savings banks in 1850, the earliest year for which figures are shown, was a little less than nine thousand; and in 1910 over nine million. Government receipts, which amounted to \$2.04 per capita in 1800, were in 1865 \$14.65, and in 1911 \$7.45, or about one-half of what they were in 1865. Exports of domestic merchandise which amounted to thirty-two million dollars in value in 1800, were over two billion dollars in 1911, and imports, which amounted to ninety-one million dollars in 1800, were one and one-half billion in 1911.

Many other subjects of this character, stated by the document in question, include details of imports and exports by great groups and grand divisions, and principal ports through which shipped; the production of principal articles, such as wheat, corn, cotton, coal, sugar, etc., from 1800 to 1910; the attendance in public schools, the same expended for that work; postal receipts and expenditures; and a few pages devoted to monetary and commercial conditions in the principal countries of the world.

Copies of the publication in question can be obtained by applying to the Bureau of Statistics, Department of Commerce and Labor.

LICENSED TO MARRY

Marriage licenses granted yesterday were to the following named couples: H. A. Shuey, nativity of California, aged 24, and Goldie Weatherston, native of Iowa, aged 21, residents of Kern county.

Kaj Paulsen, aged 26, resident of Oleander, and Georgia Tophal, aged 23, resident of Fresno City, natives of Denmark.

HARDWARE MEN ALSO CLAIM LIEN

Fresno Company Puts on Another Building.

The Fresno Hardware Company entered suit yesterday against Samuel Schenck, the R. & S. Company, the hardware men and their claimants to foreclose a lien for \$105.81 as a balance due on a claim for \$175.61 for hardware furnished in the construction of the J street theater building between May and June last. The hardware company would share with other lien claimants listed as follows:

Doyle & Beaudin	\$117.90
Moller & Beaudin	304.40
Newman & Johnson	266.47
Worswick Street Paving Company	130.00
Donahoe, Emmons Company	102.33
I. A. Cook	87.10
A. Allen	648.28
Fresno Planing Mill Company	160.00
Cole, Jeffries Company	2,247.99

TWO MEN HANG UP LOEB CASE JURY

After deliberating for eighteen hours, the jury in the case of Joseph Loeb of Coalinga for issuing a \$100 check on a bank in which he had no money, could not agree upon a verdict and was discharged yesterday forenoon by Judge Church. The jurors stood nine for conviction and three for acquittal, afterward changing to ten for conviction and two for acquittal. Loeb has been in jail since arrest unable to furnish bonds. His defense was that he gave the check to assure losses at gambling with "fixed dice."

OFFICIALS DISAGREE AS TO CAUSE OF EXPLOSION

PARIS, Sept. 28.—The Paris Midi affirms today that absolute differences of opinion exist between Vice-Admiral Bolla and Minister of Marine, Dole, as to the cause of the explosion that destroyed the Liberté, the admiral, who commands the second squadron, to which the battleship belonged, maintaining that the disaster was due to the decomposition of the powder in her magazines. Dole refuses to accept the explanation.

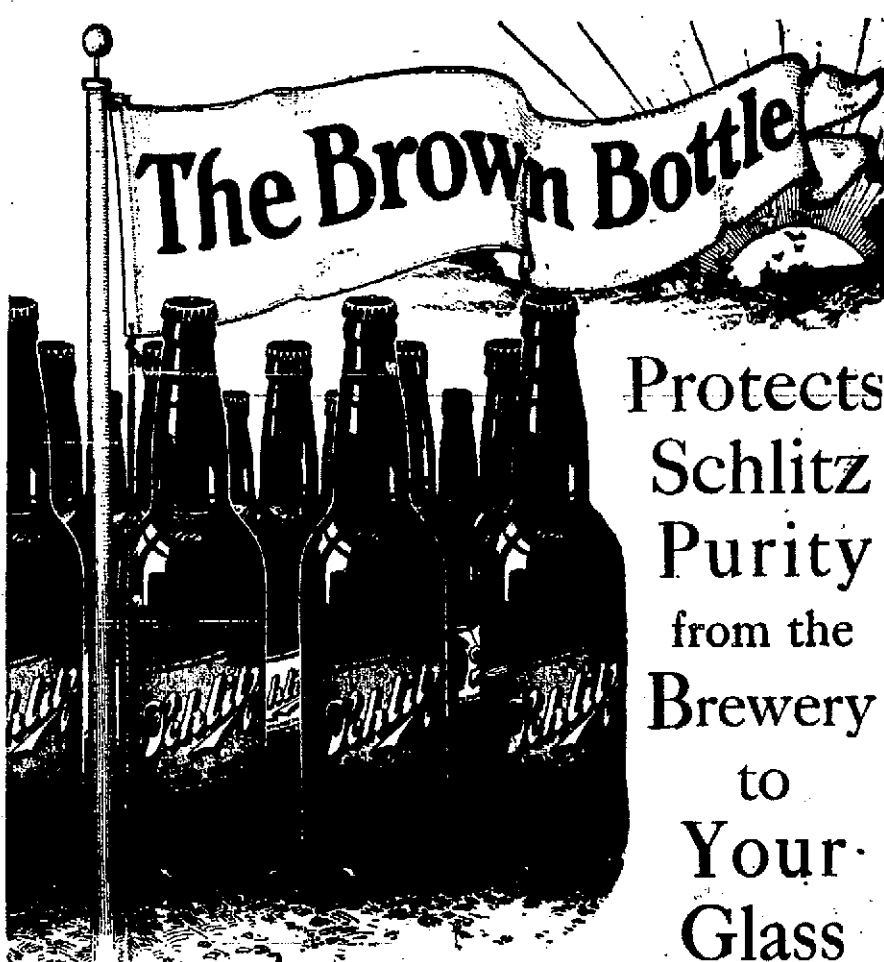

New Tuberculosis Remedy Based on Medicine

To say that a specific exists for the cure of Consumption is perhaps too strong a statement, but in Eckman's Alternative, we have a medicine that has been the means of saving many a life to years of usefulness, and in the present day, a large number of Consumptives.

Certainly, a person afflicted with a wasting disease should be well fed with wholesome, nourishing food, but frequently ray cases in quantities cause a digestive breakdown, and then no food nourishes. As for milk, a very good food for many, but a producer of biliousness for some.

Any diet that keeps a Consumptive well nourished is the right one, but what is going to cure the patient? Eckman's Alternative, which I did. My weight in the time was 75 lbs. I began to improve and steadily gained in health and strength. I now weigh 125 lbs. and am absolutely cured. Believing I owe it to myself and others I make this statement.

(Signed Affected) EDNA FINZER.
Eckman's Alternative is effective in Bronchitis, Asthma, Hay Fever, Throat and Lung Troubles, and in upbuilding the system. Does not contain poisons, opium or habit-forming drugs. For sale by all leading druggists. Ask for booklet of cured cases and write to: Eckman Laboratory, Philadelphia, Pa., for additional evidence.

Schlitz in brown bottles costs you no more than common beer in light bottles.

Light starts decay even in pure beer. Dark glass gives protection against light.

All Schlitz is aged for months in glass enameled tanks, so that it cannot cause biliousness. It will not ferment in your stomach.

If you knew what we know about beer, you would say, "Schlitz—Schlitz in Brown Bottles."

See that crown or cork is branded "Schlitz."

Schlitz
The Beer
That Made Milwaukee Famous

California Oil Field News

GOOD WORK DONE BY BRITISH CALIFORNIA

**Gets Longest String of
6 1/4 In. Casing in Field;
Coalinga Notes.**

COALINGA, Sept. 28.—The British California Oil Company, Limited, section 16-29-15, has well No. 1, 1,400 feet deep with 6 1/4-inch casing, the longest string of 6 1/4-inch casing in the field. The formation at present is a very hard shell. John Thompson, manager, has been very persistent in his work on this well. The hole was started with a rotary and considerable trouble was had in straightening the hole with the standard rods. The manager is of the opinion that the pay sand will be reached at about 4,300 feet. Mr. Pollak, the consulting engineer, has made several cross sections in an effort to locate the approximate depth to the pay sand. The several logs taken from the nearest producing properties have varied so that it is almost impossible to be guided by them. This well will determine the value of a large part of Pleasant Valley. It is over one mile southwest from the Coalinga syncline, and may penetrate a thick oil bearing sand.

The United Development Company, section 16-29-15, has well No. 2, 1,900 feet deep with 8 1/4-inch casing. On section 17-29-15, the camp has been completed. Mr. Roberts expects to commence spudding in well No. 1 early next month. The Canadian-Coalinga well has proven up the south-east quarter of section 7-21-15. Mr. Roberts may decide to drill an off-set well on this section.

STANDARD BUILDING IN THE LOST HILLS

BAKERSFIELD, Sept. 28.—The Standard Oil Company is erecting a big warehouse, superintendent's house, tool house and other buildings on its property at Lost Hills. About \$10,000 will be expended before the corporation will be ready to commence drilling operations with its customary vigor. The Esperanza Consolidated in the Lost Hills is expending \$10,000 on its lease and buildings.

FIND IMMENSE CRATER IN LAKEVIEW GUSHER

**Pumping of Oil From Most
Famous Well Reveals
Havoc Wrought.**

BAKERSFIELD, Sept. 28.—Pumping of oil from the defunct Lakeview gusher developed the fact that the pouring out of the oil and gas wore a crater a hundred feet in diameter, the walls of which are practically perpendicular for twelve feet down. What has happened below that point remains a mystery as yet, except as far as one may guess from the few outward symptoms. A suction pipe has been placed in the well and oil is now being pumped out by means of a pump located outside the wall of sacks with which the well is incased. The oil, it seems, can be pumped down readily, and it is now the intention to place a rig over the well and explore its depths with pump, biter or drill or all three.

STANDARD SPUDS IN LOST HILLS WELL

**Also Setting Up Other Rigs at Fast
as Possible; Lost Hills
Notes.**

BAKERSFIELD, Sept. 28.—The Standard Oil Company on section 3, 27-21 in the Lost Hills has spudded in well No. 1 and is getting up several other rigs as conditions will allow. It is the Standard's purpose to drill a number of wells. A big base of supplies has been established at Wasco and the big Standard teams are dragging loads of supplies across the plains to the oil district.

The Esperanza Oil Company on section 4, 27-21 has cemented off its well and is waiting for the cement to set before drilling will be resumed.

The Lindsay Incorporated Oil Company will resume drilling operations on section 7, 27-21 after two months' shut down. The Lindsay will use a standard rig in future, the gasoline rig having failed to do the work. It is understood the company is financed for drilling to a great depth, although the hole is down considerably beyond 1500 feet at present. The company's land on 7 is regarded as good for oil.

Sick headache is caused by a disordered stomach. Take Chamberlain's Tablets and correct that and the headaches will disappear. For sale by all dealers.

AGENCY MEMBERS NET 34 CENTS FOR GREASE

**Storage Reduction Is Also
Indicated By Late
Returns Out.**

BAKERSFIELD, Sept. 28.—Checks received by members of the Independent Oil Producers' Agency show a net price for oil in August of almost 34 cents. The exact figure is a fraction more than 33 cents. Moreover, the returns were for a larger amount of oil than was delivered during the month, which means that the storage was reduced. This reduction, according to estimates made from the returns to individual members, amounts to about one-ninth of the total storage. The deliveries of oil from the different companies is based on 50 percent of their respective producing capacities.

But in the lowest concrete form, the September checks of the Independent Oil Producers' Agency were larger than the checks for any month for a long time past.

Prospects are that the sales for September will equal those of August, both as regards quantity and in the matter of price. The Agency's business generally is in good condition, and the producers generally take a more hopeful view of the immediate future. Production, however, continues to increase at a faster rate than the Agency members could desire. In the West Side fields many good wells have been brought in, in oil territory especially in Midway, which is expected to reach its maximum production, so far, during the present month.

BAKERSFIELD ELECTION OFFICIALS ARRESTED

BAKERSFIELD, Sept. 28.—As the result of the uncovering of wholesale fraud in the counting of Democratic ballots in five precincts in this city at the recent primary election, thirty election officials, Democrats and Republicans, are either under arrest or awaiting detectives while trying to arrange for bail before giving themselves up to the police.

Every so-called anti-organization candidate except in a few cases of individual candidates were defrauded of votes in every precinct thus far recounted by the judges.

FRUIT PICKERS
Tally tags carried in job at the Fresno Republican Job Printing office.

AGENCY WILL ADOPT STORAGE PLAN SOON

**Directors to Accept It
Without Alteration Is
Forecast.**

BAKERSFIELD, Sept. 28.—That the storage plan outlined in the prospectus distributed and discussed at the last meeting of the Independent Oil Producers' Agency will be adopted without alteration when the directors of the Agency meet in this city Friday, September 29th, is the opinion expressed by oil men generally. Since the thorough explanation and discussion of the proposed scheme has disappeared, apparently, for no further objection is heard. The adoption of this plan and the reduction in the number of directors are the chief items of business to come before the directors.

CORONATION DOWN 2800 WITH ROTARY

BAKERSFIELD, Sept. 28.—The Coronation Oil Company, on section 8-11-25, near Maricopa, has a good well. It is reported here, at 2,800 feet, being drilled with a rotary. The well is out on the flat and the oil flowed over the derrick for the first hour or two and was shut off without great trouble.

NEWER LOST HILLS TOWNSITE PLANNED

BAKERSFIELD, Sept. 28.—Surveyors are at work on section 31, 26-21 in the Lost Hills and information is received here from San Francisco that the proposed new townsite of Lost Hills is being plotted there. The present town of Lost Hills is quiet, although one or two new buildings are being erected. Heavy hauling to the field continues over the Wasco road which is in bad shape. The majority of the oil well supplies are shipped to Wasco over the Santa Fe and must then be hauled twenty-five miles to the scene of operations.

FILE APPLICATIONS.
BAKERSFIELD, Sept. 28.—The J. M. McLeod Company has filed mineral applications in the land office for the northwest quarter of section 22, 31-23 and the southeast, northwest and northeast quarters of section 26, 31-23.

Kodaks and supplies. Finishing for amateur. C. H. Staples, 1540 Maricopa street, Fresno, Cal.

Star Theater. New show every day.

ELEVATOR FALLS WITH 22 WOMEN

**Twenty-eight Persons Are
Caught in Basement
More Than an Hour.**

SAN FRANCISCO, Sept. 28.—An elevator cage loaded with twenty-eight persons, of whom twenty-two were women, snapped its cables last night in the Odd Fellows building and fell three and a half stories before the automatic clutches checked its descent. The cage came to a stop in the elevator pit, where its panic-stricken passengers were imprisoned for more than an hour before firemen rescued them. It was necessary to cut away the top of the car and hoist the passengers to the ground floor. The passengers for the most part were members of the Amo Chapter, Eastern Star, which has lodge rooms in the building. At the close of last night's meeting they crowded into the elevator, as many as the cage would hold. The car had descended but a few feet when the cables gave way and plunged down the shaft more than fifty feet. Many of them fainted and the screams of the others brought no help for many minutes, as the car was in a cement pit and the cries could not be heard. One of the two men in the car finally kicked a hole through a glass panel and his shouts attracted rescuers.

OFFICERS' RELATIVES SHIP AS STEWARDESSES

SAN FRANCISCO, Sept. 28.—Customs and immigration officials of this port were surprised to find on the arrival of the British freighter Strathairne, from Australia, yesterday, that the ship carried no less than five stewardesses and that, too, despite the fact that the Strathairne is not licensed to carry passengers. Further amazement awaited them on the disclosure that the identity of the ship's staff of feminine help. They were Mrs. G. F. Cottis, wife of the surgeon of the United States gunboat Annapolis; Mrs. R. B. Westlake, wife of Paymaster Westlake of the same ship, and the wife and two daughters of Pay Clerk Smith, also of the Annapolis. The Annapolis has been ordered home after two years' duty at Pago Pago. There is no direct passenger service to the port and as Uncle Sam does not allow family parties on his warships, the wives of the officers of the Annapolis avoided a long, roundabout journey by shipping as part of the crew of the freighter, bound for San Francisco, where the gunboat will arrive soon.

45 Reasons Why You Should Buy Land In Kerman

It is near to Fresno, modern conveniences, excellent soil, has good schools, many churches, plenty of water, water costs only 8¢ 1-2¢ an acre; land has first water right, congenial neighbors, level land; a splendid investment; sold on easy terms, only \$17.50 an acre for first payment, only 2 per cent per month; social conditions are ideal, pure soft water, no alkali, only 50 to 80 feet to water; produces all kinds of fruits; will raise oranges and lemons; alfalfa grows to perfection, costs only \$16 to \$20 to plant alfalfa; good dairy country; good transportation facilities, electric road to be built; ideal climate; healthful location; values increasing rapidly. Kerman is a clean town, beautiful parks, modern creamery, National bank; land is clean; \$50 to \$200 to be made per acre yearly; rural delivery; telephones, electricity; crops certain; no parasites; work easily found; Kerman fruit commands highest prices; land pays for itself quickly; requires little capital; goes for Josephine river, it means prosperity.

Think Of Buying Proven Land For \$175.00 An Acre ... "Only 45 Minutes From Murray's" ...

The Land of Kerman, only 45 minutes from Fresno, is one of the most desirable places to build a home that can be found in California. It is close to Fresno, just 45 minutes by auto, it has the perfect climate that all of Fresno County has, the land is level and free from alkali, there is already a thrifty and growing town on the tract, there are hundreds of families already becoming prosperous, it has all modern improvements, there are many first-class schools, all of the people who live in this section are of the most desirable class, and in every way it is the place for persons of little means. It requires very little capital to get ahead in Kerman. All conditions are as nearly perfect as can be found anywhere.

Kerman land is equal to any in California in fertility and productivity. The greatest crops of fruit, of alfalfa and of grain can be raised in the Land of Kerman. The land is nearly level and the water supply is unfailing. This makes alfalfa a very profitable crop to raise in this section. The prices are always good and there is a market near at hand. Fruits of the tropics and of the temperate zones grow side by side in this favored land. Oranges, lemons and figs mingle with peaches, grapes and other fruits of temperate regions and all of them reach a high degree of perfection. There is practically nothing that can not be raised at Kerman and most of it can be profitably produced.

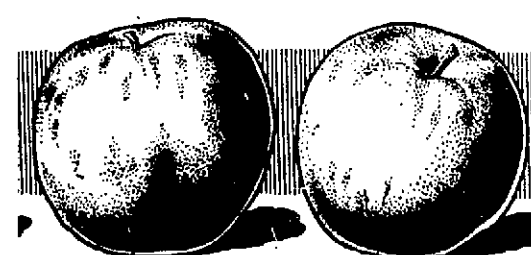

Opening The Second Section In "The Land of Kerman" And \$17.50 Down and 2 Per Cent a Month Per Acre Is All That Is Required

We are about to open the second section of the Land of Kerman. The first section is all sold and there are hundreds of happy families well on their way to prosperity where a few years ago was an uninhabited tract of rich but practically unused land. At least it was not tilled to anything like its possibilities.

The second tract will sell more rapidly than the first because it has the first as an example of what this land is capable of producing, a demonstration of what buyers can look forward to. A land of the wonderful possibilities of this Land of Kerman can not long remain on the market. It will soon all be taken.

There never was a piece of land of such real value sold on such easy terms. There are scores of reasons why this land is superior to other tracts and yet it is selling at only \$175 and on payments that amount to only \$3.50 a month on an acre. These payments are within the reach of almost any man.

DIGS TRENCH ON STREET ABOUT TO BE PAVED

Gas Company Waits for
Last Minute to Work
on Kern.

"It is regrettable that the gas company should come in on Kern street after the contractor has commenced his work of paving and dig up a trench for the laying of pipes. The time to do that was when the resolution of intention was introduced to pave the street, and not wait until the last moment after the contractor has begun his work," said Street Superintendent Thorne yesterday.

"The company has had months and months to do the work," he continued. "The paving of Kern street was delayed purposely so that the trench made for the parallel sewer should be well packed down before commencing paving work, so that there will be no depression with the ordinary packing down of the soil after the paving is once done. Still it's a question of choosing the least of two evils. It's better to dig the trench now for the gas pipe than to come in later and tear up the paving."

Superintendent Thorne further said that the gas company had looked over the proposition yesterday and the

gas company would be held to strict accountability in the digging of the trench. "I will personally supervise the work," he declared, "and see that the soil in the trench is puffed and tamped down solidly in layers of two or three inches to guard against any sinking after the paving is down."

The California Road and Street Improvement Company began work on Tuesday under its contract for the 5-inch asphalt concrete paving of Kern street from K to Santa Fe avenue and on the main day the gas company began digging up the trench on the north side of the street for its pipes. Those will be laid for nearly all the distance covered by the paving contract.

Contractor Chittenden said that of course the gas company has as much right on the street as he has, but he also thought it could have come in months ago with its trench digging to permit the last packing down of the soil rather than come on the ground at the last moment after he had begun work. Mr. Chittenden also emphasized the fact that the paving contract was delayed so that the sewer trench filling should be well packed and solid before any concrete base is laid for the paving.

The gas company was given notification last night to start down pipes where it intended in streets about to be paved.

**WOMAN AND FOUR CHILDREN DIE IN
EARLY MORNING FIRE**

MITCHELL, Ill., Sept. 28.—Mrs. Virgil Vandever and four of her children were burned to death at their home here early today. Her husband and Arthur Vandever, 18 years old, Mrs. Vandever's son by a former marriage, saved themselves by jumping from a second-story window.

POLICE LOCATE GANG OF NEGRO GAMBLERS

Five Plead Guilty and Are
Fined \$5; Others Released By Judge.

Ten negroes charged with gambling and a negro charged with vagrancy were haled before Police Judge Briggs yesterday afternoon to answer to the charges against them. Five of the negroes pleaded guilty and were fined \$5 and the case against the others were dismissed. The negroes were also allowed to depart and the case against her will not be prosecuted. The raid was made yesterday by Chief of Police Jones and Police Detectives Farnham and Channing and Patrolmen Davis, Cronkite and McCall.

The patrolmen discovered the gamblers. The game of "black-jack" was being played in the house rented by Mrs. Maxwell, across the alley from engine house No. 2. The officers looked through the window and saw the negroes playing cards with money on the table. The officers then informed Chief Jones and upon his arrival the raid was made. The negroes were taken completely by surprise. The police found \$2.25 on the table and this was taken to police headquarters. The negroes were taken to the police court rooms where a complaint was signed against them. Ambrose Patterson, Dave Nelson, Edward Thomas, five negroes and Frank G. Gilling pleaded guilty and were fined \$5 each. Clarence Berry, Charles Hudson, William Jackson, Sam Hudson and Jack Jackson informed the court that they were not guilty of the charge. They declared that they were roomers in the house and were not taking part in the game. Their statements were confirmed by the men who had pleaded guilty, so the cases against them were dismissed.

Mrs. Maxwell, with tears streaming down her face, informed the court that she was a respectable lady and that she could not afford to lose her reputation by being hauled into police court. "Why, no, sir, man," said the negroes, addressing the magistrate, "I ain't done nothing, and I ain't been in Fresno for a week."

The negroes went on to state that she came here from Hollister and that she had no idea her acquaintances were "gambling men." She promised to be in the future and the charge against her was dismissed.

MAY BE WANTED IN SOUTH FOR FORGERY

Whitechat Is Thought to
Have Been Paroled in
Los Angeles.

That Richard Whitechat, who is being confined in the Fresno county jail on a charge of passing a fictitious check, has been paroled in Los Angeles three years ago for a like offense, and that he is also wanted in Santa Ana and San Diego for forgery, was the information that was placed in the hands of Sheriff Walker McSwain late yesterday. Word was immediately sent to Los Angeles to secure the past record of Whitechat. It is understood that Whitechat while in Los Angeles worked for Brock and Pagan, jewelers, and went under the name of Richard Brown.

He is alleged to have passed a fictitious check there for a large sum of money and to have escaped punishment by being paroled. The information was supposed to have happened about three years ago. He will not be taken back to Los Angeles but if the Fresno officers find out that he was really paroled there he will be charged with a prior conviction in the court here.

According to information that is in the hands of the authorities Whitechat is wanted in Santa Ana and San Diego for forgery. Word has been sent to the authorities at those two cities but as yet no word has been received. Whitechat has a wife and three little children who are in destitute circumstances in Berkeley where he was arrested for the Fresno officers. According to the statement that the Berkeley officers made to Deputy Sheriff Batorff, who brought Whitechat to Fresno, there was only one half pound of coffee in the house. There was no food in the house.

**DINUBA WOMAN IS
HURT IN RUNAWAY.**

DINUBA, Sept. 28.—As a result of a runaway accident last evening Mrs. John Pickford, wife of the Southern Pacific agent here, is at her home west of town in precarious condition. Mrs. Pickford pulled the animal short over into the other street, and in doing so cramped the buggy so short that the rig was upset and she and her companion, Mrs. Jones, was thrown out. Mrs. Jones escaped uninjured. Mrs. Pickford was caught in the buggy top and was dragged some distance. She was seriously crushed about the hips.

UNLAWFUL TO SWEEP DIRT INTO STREETS

All of the patrolmen were yesterday afternoon ordered by Chief of Police Jones to enforce the ordinance which prohibits merchants from sweeping dirt and rubbish into the public streets. The ordinance prohibits people from sweeping dirt from the sidewalks into the streets and gutters. The offense is a misdemeanor.

The ordinance reads as follows: "Any person who shall deposit any ashes in any wooden vessel, or on the floor of any building, or who shall deposit them in their own or other premises nearer the ten feet in any wood-work or structure, or who shall throw any fire or burn any refuse matter or deposit or throw in any street or alley any paper, ashes, dirt, or throw trash of any kind or nature whatsoever, is guilty of a misdemeanor."

THE CAUSE OF ECZEMA

A germ life that burrows under and feeds on the skin. The way to cure ECZEMA is to remove the cause by washing away with a clean, penetrating liquid, the germ life and poisons that cause the trouble.

We have a preparation that will do this. The first application will stop the itching and give prompt relief to an irritated, itching or inflamed skin. If you are a sufferer from skin or scalp eruption in any form, try one bottle of this clean, scientific preparation. We are confident you will be pleased with the results from the use of this standard preparation for eczema.

Good for infants as well as grown persons. Monroe Drug Co., 2002 Mariposa St., Fresno, Calif.

WILL SEND TEAM TO GRAND ENCAMPMENT

In order to be able to compete for prizes at the coming Grand Encampment of the Knights of Pythias at Pithas in Grass Valley next May, the members of Wovuna Camp No. 1 of this city are diligently holding drills and familiarizing themselves with the various drills. A drill and meeting will be held next Monday night in the basement of the city hall. A meeting was held at this place last Monday night and several applications for membership were received. Many of these applicants will be initiated Monday night.

No little amount of interest is being shown by the members of Pythias of Fresno. They desire to send a winning team to the Grand Lodge and to that end the members are working diligently. S. C. Simkins is captain of the local company. Two weeks from Monday night a social will be held in the old Masonic Temple at the corner of I and Tulare streets.

RANCHER MARRIED BY REV. WALLACE

Harry A. Shuey, a rancher of Empire colony, and Miss Odile Weatherston, also of that colony, were married yesterday afternoon at 4 o'clock at the Catholic Presbyterian church by Rev. Duncan Wallace. The ceremony was witnessed by a large number of friends of the bride and groom. The groom is the son of J. W. Shuey, an Empire colony ranch. The bride is well known in this vicinity and has a host of friends. Mr. and Mrs. Shuey will make their home on the groom's ranch.

FORGER WANTED HERE FOUND IN PORTLAND

Speedy Work of Fresno and
Selma Officers Bring
About Arrest.

Speedy work on the part of Sheriff McSwain assisted by Constable Staley of Selma yesterday resulted in the arrest of Dewitt E. Prindle at Portland, Ore., on a charge of forgery. The warrant for the arrest of Prindle was placed in the hands of Sheriff McSwain Monday noon and yesterday noon the sheriff received word that Prindle had been captured at Portland.

Prindle is alleged to have forged the name of E. P. Myers of Selma to a check for \$64. The forgery took place last Saturday and it was not discovered until Monday morning. The check was bogus. Myers then immediately came to Fresno and secured the warrant. Prindle had been working at Selma but left there Saturday evening presumably to go to San Francisco for a few days.

Word was sent to the San Francisco officers to be on the lookout for Prindle but he slipped past them and continued on to Portland. The officers lost track of him in the bay city and were unable to take up the trail again until Friday morning. Prindle's name and telegraphed to a rancher in Selma asking him to forward \$50 by wire and a letter of explanation would follow. The rancher knew that the brother was working near Selma and he turned the telegram over to Constable Staley. The conclusion was then reached that Prindle was in Portland. His description was telegraphed to Portland and the officers there picked him up under arrest. Prindle informed the officers there that he would return to Fresno without extradition papers.

Deputy Sheriff Batorff left last night for Portland.

COMMITTEE ON HEALTH FORMULATES ITS PLANS

Sub-Committee Named to
Lay More Definite
Scheme Out.

At a meeting last night of the committee which was recently appointed by Dr. W. P. Miller of the medical society, plans for health education were generally discussed, but no definite decision was reached. A sub-committee was "appointed" to thoroughly discuss the subject and form plans and another meeting of the general committee will be held next Thursday evening.

Those present at the meeting last night were Dr. W. P. Miller, Dr. J. R. Walker, Physical Director John Fee of the Y. M. C. A., City Superintendent of Schools C. L. McLane, Attorney Henry Hawson, Chester Howell, Mrs. M. S. McNulty and Mrs. George Alken. The members on the sub-committee are Mrs. McNulty, John Fee, Dr. Walker and Dr. Miller, ex-officio. The meeting was held in Dr. Walker's office.

SINGERS COMING TO HIGH SCHOOL

On Friday evening, October 6, an octet of colored "jubilee singers" will appear at the Fresno high school auditorium. The troupe is composed of four men and four women. Of the entertainment, the University of Southern California Courier, which commented on only half of the entertainment, that of the men, said: "Whoever thought that four African gentlemen could produce such applause? So great was the reaction from 'Way Down Yonder in the Corn Field,' that the dusky four were compelled to respond to several encores, among which was 'An Imitation of a Spanish Cat.' One could almost imagine he heard the steam itself escaping when the silver-toned tenor came forth with his loud 'Tee-Poo.' The piece was received with that species of applause that college men alone are capable of producing. Said professor was seen to behave like youngsters."

KRUTTSCHNITT'S DAUGHTER REBECCA TO MARRY

CHICAGO, Sept. 28.—Miss Rebecca Kruttschnitt, daughter of Julius Kruttschnitt, vice president and active manager of the Harriman roads, and her mother are in Chicago on their way to New Orleans, where the daughter is to be married to Henry Clifford Woodhouse, an Englishman. The marriage will take place at the home of the bride's aunt, Mrs. Joseph P. Blair. The honeymoon will be spent in the Orleans and after March the young people expect to be at home in Oregon. Mr. Woodhouse has money, but no title or nobility.

"King" Cole Beats Christy Mathewson, 2 to 1

CUBS MAKE IT TWO STRAIGHT GAMES AT HOME

New York Giants Fall in Second Battle; Joe Tinker the Star.

New York's confidence of winning the National League pennant was given a further setback by another defeat by Chicago, by which Chicago gained eight points more in its upward fight to displace the leaders. Forty-three points now separate the rivals.

The standing:

NATIONAL LEAGUE	Club	To play	W.	L.	Pct.
1	New York	14	50	56	.842
2	Chicago	14	42	64	.800
3	Pittsburgh	14	37	69	.552
4	Philadelphia	14	31	75	.521

CHICAGO, Sept. 28.—Chicago made it two straight from New York today, winning the second game of the series. The difference between the two clubs in the pennant race is cut down to 3 1/2 games of 43 points.

Joe Tinker, hero of many battles, batted out the hit that gave Chicago victory. After two men were out, Sheppard and Schulte each singled and scored on Tinker's double to left field.

Mathewson opposed "King" Cole in a pitchers' battle. The former was hit safely seven times, while Cole allowed five hits, only two of which were bunched in the opening inning.

The support, however, behind Mathewson was rugged, while that of the Chicagoans was even less sensational. Score:

FASHION SHOW OPENS WITH HUGE SUCCESS

Great Crowds From Many Towns View Splendid Displays of Fabrics and Gowns—Proves Revelation—Greater Crowds Are Expected

Fresno's first fashion show opened yesterday with a rush. The word is spreading rapidly. It was a rush on the part of the crowd, along the splendid store fronts and through the store-rooms, flooded on either hand with gowns, materials and fabrics, gloves, hand bags, a thousand and one trifles of dress and wear in a galaxy of gorgeousness such as never before seen in Central California, and not surpassed anywhere in the West, except in the one item of the number of the city's stores.

From early morning when the first trains began discharging their passengers in long lines, until late in the evening, the streets were thronged. Throughout the afternoon, even standing room was at a premium in the stores. There was an over-demand for space in which to move about before the various shop windows. And the hum of the great crowd was punctuated all day long with the exclamations of ecstasy from the feminine cohort.

It was declared yesterday that a majority of the people in the big department stores were from out of town. This rush of sightseers from the other towns and cities of the valley is expected to be even more marked today and tomorrow. Governor Johnson's visit to this city today will furnish an extra inducement that is expected to have a big effect, while Saturday is likely to be the biggest of the three days of the show. IS NOT SURPRISED.

People from San Francisco who are here in connection with the local show yesterday made some comparisons. It was enthusiastically declared that Fresno suffers by this comparison not at all, with the exception that the number of stores and the size of the stocks necessary made the bulk of the show greater. The fabrics shown here are as choice, the gowns as dashing and bewitching, the accessories as charming and unique as may be seen anywhere. It is a vindication of the claim of the Fresno merchants that they are able here to gown and outfit people as handsomely and correctly as anywhere outside of the private haunts of the world's greatest designers. The variety and resourcefulness in the displays is one of the startling features. Here is a great front done altogether with light shades of pink and white for a background; there is a rich green velvet, edged with gold, the general scheme in another place, a shower of autumn leaves given its appropriate touch to the fall show.

Set models and fine hats form the bulk of the displays in each department store window. Yet a very great variety has been secured. In the millinery stores, the variety, seemingly a thing not possible, is quite as marked. Men's furnishing stores showed a remarkable amount of individuality in the displays presented in the glass fronts. Show stores used furnishings in some cases, as freely as did the stores dealing in the fluffiest of ladies' goods. And jewelry stores, with their great facilities for putting out things that attract, did marvelously well.

WINDOWS ARE SPLENDID.

The great show windows got a lion's share of the attention. In fact, nothing like them has ever been seen here before. In startling degree the rich "coronation purple" added an individual touch to the color scheme. Evening dress figured largely. Not gowns were particularly in evidence, with cloaks for evening wear, some bearing wonderful embroideries. Hats formed another feature with which universal careful attention had evidently been paid. Birds of Paradise were perched on innumerable hats; wonderful plumes waved away from wide creations of distinctive dash; a touch of the Oriental so popular in all the displays, figured in the make-up of high, slender things not unlike the crown of old empires of Ancient Egypt. Pure gave the proper atmosphere of fall and coming winter here and there.

Quality and not quantity was sought everywhere. In fact, the simplicity of most of the window dressing was as remarkable as the fineness of the fabrics and designs that made up the display. It seemed arranged with the deliberate design, not of dazzling the beholder with the mass of color and graceful lines forced on his attention, but of allowing just enough for this effect, and besides, ample opportunity to realize superb and beautiful things. Went into each piece of cloth, each garment, every hat, each hand bag and length of galloon.

The hats displayed by millinery stores were without exception remarkable creations. In one place, there was a mass of the fluffy yellow or dyed black of Bird of Paradise plumage—the kind that makes the shekels fly as lightly and swiftly as ever did the little bird. There, in another window, reposed one magnificent hat, masterpiece of its kind. Again, variety was sought, and all the latest and best of the latest thing in hats were fully illustrated.

MEN'S STYLES PROMINENT.

The men's stores were not behind. Not only the prevailing styles in suits and coats were to be seen, but an infinite variety of all those little things as essential as suits and coats to the man who in well dressed. Hats, staves, beaver, felt and cloth, exemplified every known shape, color, style and size. Gloves ranged from the light chambray and silk, which will still be worn while good fall weather lasts, to the best of kid and white dress gloves. The fall factor was in evidence. They are again quite the thing, just as are canes, which appear in all weights, colors and materials—bamboo, white pine, mahogany, ebony, rosewood and many other materials. Shoes appear in big evidence. Tan continues popular in the displays. New

lasts of particularly striking dash and style are shown freely, as are some styles of more English appearance, which are now being affected by the dressers that are following the English lead. Women's shoes are running more and more to high tops, a vogue that was popular last winter.

MODELS AND MUSIC.

But the show was by no means on the streets. To those who went into the big stores and saw the shifting throng that hour after hour drifted in and out, watched with admiration the living models, and viewed the mountings of dress goods glory. It was apparent that by far the greatest part of the show was to be found on the interiors. The models attracted attention that never waned. Strains of orchestra music from this store and that drew the crowds that passed, and then came a spell of chime while they were initiated into the wonderland of things to wear.

Everything in every store was on dress parade. The clerks were not only their brightest smiles and faces, but their smartest frocks and best suits. A festive air pervaded everything; the atmosphere of business was banished for something far from the humdrum—something pleasing, joyous, in keeping with the really high art that went into the making and showing of all the wonders—the holiday spirit.

Quite remarkable as the scenes of the day were those enacted on the streets after the closing hour, when the lights came on and all the show was transferred for the time to the glittering windows. Then the major part of the crowd was composed of persons, and for hours despite lowering weather, it drifted up and down, looking, exclaiming, discussing and commending. It was something "never seen in Fresno before," a real credit to the town, "something few people realized was here," and many other things that the atmosphere of business was banished for something far from the humdrum—something pleasing, joyous, in keeping with the really high art that went into the making and showing of all the wonders—the holiday spirit.

Stimulus imparted by the show took immediate effect, according to reports from all the stores. The merchants said, in summing the situation: "The crowd has been immense, in spite of rather unfavorable weather; the interest shown has been most gratifying; and then, quite unexpectedly, the cash business has been unusually large. That was something we were prepared not to expect. But the spirit today has not stopped altogether with seeing."

This show was planned to place Fresno where it is declared it belongs. In the place of the bona fide and true commercial center of the entire valley. It was considered a very significant thing that Fresno could even attempt an elaborate fashion display, and that it has all worked out beyond what anyone was led to expect. It is a matter of congratulation that there is such an unmistakable manner that there is real class, body and merit to the stores of the city and the class of goods they handle.

SAYS WINE WAR IS TO AFFECT DRY WINE MEN, TOO

Expects Cheap Grapes to Be Used in That Way, By the "Trust."

Demand for Fresno Muscat Brandy Assures That Grapes Will Go.

While admittedly the "war" in wine has been confined to port, which is principally held by the independents, a note of warning to the dry wine sections is sounded in the Wholesale and Retailers' Review. Here, a communication, believed to have been written by one of the independent wine men, declares that it is in the dry wine sections that the most anxiety is felt. The communication says:

"It is there that sensible men should be found to assist in correcting evils of over-planting in the great valleys. While the independents are organizing to save the price of port wines, their more experienced competitors are planning to make up a great quantity of dry wines from ten-dollar grapes, which will be pouring into markets that require the cheapest qualities in competition with the products of the eighteen and twenty dollar grapes of the coast counties. If in this way the interior crops can be utilized the trouble will be much worse than the port wine producers imagine. The 'vain thing' which they imagine is that the C. W. A. will continue to make much port wine which they can sell at a profit. If they do that kind of business, it will be some time yet before their common stock shows the influence of a dividend."

The specific charge in the "wine war" is contained in a note to the effect that the cut in port prices is alleged to be an effort to "clinch" the independents, who hold large stocks of port. The story is lent color by the fact that the cut does not affect such grades as sherry and claret, which the independents do not hold.

Disregard of from 20 to 30 per cent of the wine vineyards is advocated, as then a higher price would be forced on the competitors of the independents, it is claimed.

MARKET FOR BRANDY.

The statement is made elsewhere in the same publication that "distillers this year are even calculating, if not hoping, that early rains may interfere with rain drying and help the wineries." The answer is that a New York market is being springing up for a certain superior grade of Fresno muscat brandy, now being produced. The reference to this brandy is in full as follows:

"Some of the Fresno muscat brandy, made from muscat wine carefully fermented without the pomace, is an approximation of the delicate, free from objectionable volatile acids and other. A market in New York for such brandy, without any artificial flavors and deceptions of wood oak, is springing up, and there is now no danger of any surplus of rain grapes. Distillers this year are even calculating, if not hoping, that early rains may interfere with rain drying and help the wineries."

Today We Will Show The Newest Brown Suits For Fall

—Complete change in our large window daily. For today we will feature tailored suits in the new autumn browns—tomorrow a complete change again. Visitors and home folks should see the attractive array of fine tailor made garments at popular prices.

Acquaintance and Confidence

People doing business together, especially financial business, must have confidence in each other.

You wouldn't loan money to anybody on ten minutes' acquaintance.

Your confidence in people grows on acquaintance; it's the same with this bank.

We want to be in position to loan money when needed to responsible borrowers. There is no better way to establish an acquaintance than to deposit your funds here regularly.

Now is a good time to begin.

VALUABLE PRIZES FOR DAIRYMEN

United States Cream Separator and \$50 as County Fair Awards.

The publishers of "Orchard and Farm" have chosen the United States Cream Separator as a supplementary prize to be awarded in the five days' milking contest which is to be held at the County Fair next week. Premiums amounting to \$250 have been offered by Mr. E. W. Chandler in this contest. The fact that the United States Separator was chosen by these experts over the other machines shows the ever increasing popularity of this close and easy skimmer. It is just one more mark of distinction for the greatest separator of them all—the United States.

The Woodward Co., who are San Joaquin valley distributors of this cream separator, are greatly pleased in the preference shown their machine.

HEALTH OFFICER FINDS 65 MILES OF STREET FILTHY CASE AMONG ORIENTALS

Chinese Laborer, Aged 80, Found on Sidewalk in Bad Condition.

Disease-Infected Flies May Have Contaminated Fresh Meats.

The attention of Dr. Aiken, city health officer, was called yesterday to a filthy case in Chinatown, where meat shops, fish markets, restaurants and noodle kitchens were being contaminated by disease-infected flies. The case is unequaled in the history of the city, according to Dr. Aiken.

The patient proved to be a Chinaman about 80 years of age who was suffering from a swollen leg. Running sores as large as the palm of a man's hand were found on the enlarged limb. The Oriental had rolled up his trousers and around the sores he had wrapped a newspaper. The paper had become soaked with blood and on the paper were thousands of house flies. The city health officer found the aged laborer sitting on a bench at the edge of the sidewalk calmly smoking a pipe. Flies were swarming about the blood-covered leg and Dr. Aiken declares he traced the house pests from the patient to nearby meat shops, fish markets and kitchens of restaurants and noodle houses. The Chinaman was removed to the county hospital for treatment. According to Dr. Aiken, the patient was very unclean and his clothes were filthy. Before sending the man to the hospital, Dr. Aiken had the fly-covered leg photographed. This picture will be sent to the state board of health. The Chinaman was also suffering from a high fever.

ARRESTED WHILE TRYING TO LEAVE

Declaring that they were not guilty of evading the payment of railroad fare as they did not get a chance to ride on the blind baggage, Jose Pedder, Jesus Munoz, and E. Parado, appeared before Police Judge Briggs yesterday and pleaded not guilty to the charge. They were returned to jail in lieu of bail. The men informed the court that it was their intention to beat their way out of town but they were unable to do so as the officers arrested them. James Lewis, who was arrested on the same charge told the court a very plausible story and the charge against him was dismissed.

65 MILES OF STREET SWEEP EVERY NIGHT

Superintendent Thorn Complain of Litter Swept Out From Stores.

"Some of the Fashion Show people complained to me of the littered condition of the downtown streets today," remarked Street Superintendent Thorn yesterday, "and one man actually stood in my face that Mariposa street on Wednesday night had not been swept. I came down town at midnight on Wednesday and myself saw Mariposa street swept. The trouble is that the gutters are littered up with paper and trash swept out in the morning from the stores. It is impossible, of course, to keep the streets clean when they are swept at midnight on the day before and the only way to keep them clean is to have a man on each paved street down town with can and broom."

Superintendent Thorn says that 65 miles of paved streets are swept by machine nightly as follows according to his schedule: Chinatown, 7 blocks on H. I. and K. 9 on J. 6 each on Fresno from G to M and Tulare from Q to 3 or 4 half blocks, around the court house park and 3 each on Inyo, Kern, Merced and Mariposa and 1 on L.

On other days of the week the following streets are swept:
Tuesday and Saturday—Fresno from M to Q, 7 blocks.
Monday and Friday—J between Neilson and Stanislaus, 7, J between Tuolumne and Eldorado 6 and Tuolumne between H and K 3.

Wednesday and Saturday—Tulare between Q and Tulare Avenue, 5.
Monday, Tuesday and Saturday—Tulare between M and G, 4.
Friday—Forthamp from Neilson to Belmont, 4 blocks.

LACKING 5 CENTS COULDN'T PAY FARE

Reedley Man Sues Santa Fe for Damages for Humiliating Ejection.
Suit for \$1050 damages was commenced yesterday by Thomas P. Reedley against the Santa Fe Railroad company. It appears from the complaint that Reedley entered the train at Reedley to come to Fresno and did not pay the fare before doing so, said fare being 20 cents. Two miles from Reedley fare was demanded. Reedley says he tendered 20 cents as the fare because an opportunity had not been afforded him to pay before entering the train which fact he declared. Eighty cents was demanded as train fare but as Reedley says he had only 75 cents he was ejected at Los Angeles with more violence than necessary, was bruised, made to suffer great pain, suffered humiliation, was delayed in his business and his 250 clothes were very plausibly story and the charge against him was dismissed.

RESTAURANT MAN SUED FOR SLANDER

Eugene Zircher, Defendant in an Action for Ten Thousand Dollars Damages.

"Donohue perjured himself and swore to lies and they got me for the commission," the above remarks alleged to have been made on the 18th inst. by Eugene Zircher, the restaurant man, in a discourse with one Joe Bousha are the basis of a complaint for \$10,000 damages for slander by William B. Donohue. The latter says that before the committing of the grievances complained of an action was pending in the justice court between P. M. Kittrell and Zircher and Donohue gave evidence for Kittrell. Judgment was given as prayed for, and the above remarks are alleged to have been made by Zircher concerning the trial and Donohue's testimony. The language is also charged to have been uttered in the hearing of Sanger Adams and other persons at sundry times with "the same false and scandalous meaning." The \$500 bond given on filing the complaint is with Kittrell and Bousha as the sureties.

BRIDGE MATERIAL FOR GRANGER'S ROAD HERE

Promoter of Interurban Line Says Track Laying Begins Oct. 15th.

Material for bridges on F. R. Granger's interurban railroad is arriving here daily and the promoter is awaiting the coming of the steel early next month to start track laying. Granger stated yesterday that the first rails would be spiked to the ties about the middle of October. The rails, frogs and other steel and ties are expected to begin arriving here from the East about October 10th.

The material for the bridges will be put into place next week. All grading work between Fresno and Kingsburg has been completed and with the bridges installed and rails on the ground, Granger predicts the work will be rushed to an early completion, possibly by the first of the year. The date set for running the first cars is February 1, 1912.
